Such bond shall be approved as to its form and sufficiency by the Secretary for Agriculture.

Such applicant may in lieu of such bond deposit with the Secretary for Agriculture money or securities in which banks may invest the moneys deposited therein, as provided by law, in an amount equal to the sum secured by the bond required to be filed as herein provided.

The bond required to be filed hereunder shall be given to the Secretary for Agriculture in his official capacity and shall be conditioned for the faithful compliance by the licensee with the provisions of this act and for the payment of all amounts due to persons who have sold milk or cream to such licensee, during the period that the license is in force. The money or securities deposited with the Secretary for Agriculture as above provided shall constitute a separate fund, and shall be held in trust for, and applied exclusively to, the payment of claims against the licensee making such deposit, arising from the sale of milk or cream to such licensee.

Upon default by the licensee in the payment of any money due for the purchase of milk or cream, which payment is secured by a bond or a deposit of money or securities as hereinbefore provided for, the creditor may file with the Secretary for Agriculture, upon a form prescribed by him, a verified statement of his claim. If such creditor shall have reduced such claim to judgment, or shall thereafter and before the commencement of the action by the Secretary for Agriculture, as hereinafter provided for, reduce such claim to judgment, a transcript of such judgment shall also be filed with the Secretary for Agriculture.

Such statements may be filed at any time during the period of the license for purchases made during such period and within ninety days from the termination of such period.

After the expiration of ninety days from the termination of any license period the Secretary for Agriculture shall, by proper action wherein all such creditors and any surety upon any bond given as hereinbefore provided for and the licensee shall be parties, proceed to determine the amount due each creditor, and the judgment rendered in such action shall be enforced ratably for such creditors against the surety on the bond, if one there be, or against the moneys or securities deposited as hereinbefore provided for. If any creditor shall have reduced his claim to judgment such judgment shall be presumptive proof of the amount due such creditor in any action brought by the Secretary for Agriculture as hereinbefore provided for.

Every bond given pursuant to the provisions hereof shall be applicable, in the first instance, to the payment of all claims arising during the license period for which such bond shall continue, and filed either during such period or within ninety days after the expiration thereof. If all such claims shall be paid the balance available upon such bonds shall be devoted to the extinguishment ratably of claims arising during such license period, but for which statements shall not have been filed until after ninety days after the expiration of such period.

All moneys and securities, deposited as herein provided for, shall be applicable in the first instance, to the extinguishment of claims, properly filed, arising during the license period for which such moneys or securities were originally deposited, and if, after the extinguishment of such claims, there shall be a surplus remaining, such surplus shall be devoted to the extinguishment of claims arising during any preceding license period which were properly filed as hereinbefore provided, all claims for any one license period to be of a parity. Any surplus remaining after the extinguishment of such prior claims shall be added to the moneys or securities then on deposit with the Secretary for Agriculture, or, if there be at that time on file with the Secretary for Agriculture a bond given pursuant to this section, or if there be then on deposit with the Secretary for Agriculture additional moneys or securities deposited as herein provided for, and if such bonds or such moneys or securities, as the case may be, shall, in the opinion of the Secretary for Agriculture, be sufficient, such surplus shall be returned to the licensee.

A person or corporation licensed hereunder shall make a verified statement of his or its disbursements during a period to be prescribed by the Secretary for Agriculture, containing the names of the persons from whom such products were purchased, and the amount due to the vendors thereof. Such statement shall be submitted to the Secretary for Agriculture when requested by him and shall be in form as prescribed by the Secretary for Agriculture if it appears from such statement or other facts ascertained by the Secretary for Agriculture, upon inspection or investigation of the books and papers of such licensee as authorized by section two of this act, that the security afforded to persons selling milk or cream to such licensee by the bond executed or deposit made by such licensee as herein provided does not adequately protect such vendors, the Secretary for Agriculture may require such licensee to give an additional bond or to deposit additional money or securities, to be executed or deposited as above provided, in a sum to be determined by the Secretary for Agriculture, but not exceeding by more than fifty per centum the maximum amount paid out by such licensee to sellers of milk in any one month; provided, however, that the maximum amount of the bond or deposit required from any applicant under the provision of this section shall be one hundred thousand dollars; and that any applicant filing a bond or depositing money or securities in such maximum amount may be exempted from filing either the statements of milk purchased, or the statements of disbursements in this section provided for.

The Secretary for Agriculture may, notwithstanding the provisions of this section, if satisfied from an investigation of the financial condition of any applicant for a license under this section, that such person or corporation is solvent and possessed of sufficient assets to reasonably assure compensation to probable creditors, by an order filed with the Department of Agriculture relieve such person or corporation from the provisions of this section requiring the filing of a bond.

The term "station" or "milk gathering station," as used in this and ensuing sections of this act shall include any established office where the business of buying milk or cream as herein provided for is carried on with or without a place or premises in connection therewith for the physical handling of milk or cream, provided that such station or office shall be a suitable place for keeping such records and accounts and for posting such notices and statements as are required or as may hereafter be ordered under the provisions of this act, and for keeping for inspection as hereinafter provided, a copy of the license under which the business of a licensee is conducted. (Supp. 1924, p. 1422 et seq.; L. 1917, c. 74, § 1, as amended L. 1918, c. 160.)

123. Investigation of Complaints—Copy of Complaint Served—Hearing.—The Secretary for Agriculture and his assistants shall have power to investigate upon the complaint of any interested person, or of his own motion, the record of any person, firm or corporation applying for or holding a license, or any transaction involving the purchase of milk for shipment as provided in section one; and for such purpose may examine the ledgers, books of account, memoranda or other documents of any such person, firm, association or corporation applying for or holding a license and may take testimony therein under oath; but information relating to the general business of any such person, firm, association or corporation, disclosed by such investigation and not relating to the immediate purpose thereof, shall be deemed of a confidential nature by the Secretary for Agriculture, his assistants, representatives and employees. When a complaint is filed with the Secretary for Agriculture, he shall attempt to secure an explanation or adjustment, and, failing this within ten days, he

shall cause a copy of the complaint, together with a notice of the time and place for a hearing thereon, to be served personally or by mail upon said applicant or licensee. If served by mail, such complaint and notice shall be directed to the applicant or licensee at his place of business, with postage fully prepaid thereon. Such service shall be made at least seven days before the hearing. At the time and place appointed for such hearing, the Secretary for Agriculture or his assistants shall hear the parties to the complaint, shall have power to administer oaths and shall enter in the records of the office of the Secretary for Agriculture a decision either dismissing such complaint or specifying the facts which he deems established on such hearing. (Supp. 1924, p. 1425 et seq.; L. 1917, c. 74, § 2.)

124. Causes for Refusing or Revoking License—Judgment Entered—Failure to Settle.—The Secretary for Agriculture may decline to grant a license or may revoke a license already granted when he is satisfied of the existence of the following cases or either of them:

(2) Where there has been a failure to make prompt settlements to persons from whom he buys milk, with intent to defraud.

(3) Where there have been combinations to fix prices.

(4) Where there has been a continual course of dealing of such nature as to satisfy the Secretary for Agriculture of the inability of the applicant or licensee to properly conduct the business or of an intent to deceive or defraud creditors.

(5) Where there has been a continued and persistent failure to keep records required by the Secretary for Agriculture or by law; or where there is a refusal on the part of the licensee to produce books, accounts or records of transactions in the carrying on of the business for which such license was granted. (Id. § 3.)

125. Review by Court.—The action of the Secretary for Agriculture in refusing to grant a license, or in revoking a license granted under section one, shall be subject to review by any court of competent jurisdiction, and if such proceedings are begun to review the revocation of license, the license shall be deemed to be in full force and effect until the final determination of said proceedings of review. (Id. § 4.)

126. Record of Transactions—Itemized Statement—Schedule of Prices Paid Posted.—Every proprietor of a milk gathering station shall keep, in such form as the Secretary for Agriculture may prescribe, a record of transactions of purchases of milk or cream by him, and he shall, at least semimonthly, deliver to each person from whom he receives or purchases milk or cream and in the unit of measure used in computing the amount due therefor, an itemized statement of the several amounts or quantities of such milk or cream so received or purchased at such milk station from such person during the prior half month, or, if statements are delivered more frequently than semimonthly, during the period of time which has elapsed since the delivery of such last prior statement. If the milk or cream is purchased or received on a butter fat basis, such statements shall include the percentage, or average percentage, of butter fat contained in said milk or cream as determined by tests periodical or otherwise. Every such proprietor of a milk gathering station shall post in a conspicuous place in such milk station a schedule of the prices being paid for milk or cream, including the premiums paid or deductions made, if any, for milk or cream containing milk fat either in excess or in lesser amount than the agreed standard, and shall keep a correct account of all the milk or cream daily received or purchased from each person at such milk station, which account shall be open to inspection by said person. The Secretary for Agriculture shall treat such application as a complaint and shall cause a full investigation of the transaction complained of to be made either by himself or one of his assistants, in the manner provided for in section two. (Id. § 7.)

129. Penalty.—Any person who, being a buyer of milk for the purposes set forth in section one, and not being licensed, shall conduct the business of buying milk as provided in section one, shall be liable to a penalty of twenty-five dollars

If the officer executing any such writ shall be unable to find sufficient goods and chattels of said defendant or defendants in his bailiwick to make the amount of said judgment and costs, he shall take the body of the defendant or defendants and deliver him or them to the keeper of the common jail of said county for a period not to exceed ten days, except as may be otherwise in this act in this respect provided; or until said penalty and costs are sooner paid; provided, however, that the defendant or defendants may be released upon order of the judge or magistrate before the expiration of any imprisonment prescribed in default of payment of any judgment, upon the written order of the committing magistrate or a justice of the Supreme Court, in the discretion of said judicial officer, after one day's notice of time and place of application for such order to the State Superintendent of Weights and Measures. It shall be the duty of the city attorney of any municipality wherein such violation shall take place to assist in the prosecution of the same, unless such municipality has no such municipal superintendent of weights and measures, as provided for in section ten hereof in which case the public prosecutor of the county wherein such violation shall take place, shall assist in such prosecution. All fines and penalties collected from persons offending against the provisions of this act shall be paid by the magistrate receiving the same into the county treasury of such county, unless such penalty was incurred within a municipality or municipalities having a municipal superintendent, as provided in section ten, in which case such penalty shall be paid into the treasury of said municipality or municipalities pro rata. (Id. § 39, as amended L. 1913, c. 194.)

the view of any superintendent or assistant superintendent of weights and measures, such superintendent or assistant superintendent is authorized, without warrant, to arrest the offender or offenders and to conduct him or them before the judge or police magistrate having jurisdiction in said municipality wherein such arrest is made and offense committed, and such judge or police magistrate is hereby authorized and required on verified complaint in writing, setting forth the nature of the offense for which said arrest was made, to be filed then and there with such judge or police magistrate, before the commencement of the hearing, to hear and determine in a summary way the guilt or innocence of such person or persons, and inflict the penalties provided by law. Such bulletins, publications and reports and the information contained therein shall be published and distributed in the manner deemed best by the commissioner for the dissemination of knowledge as to the agricultural and dairy interests of the State and the production, sale, purchase, storage, marketing and distribution of foods, and the economic and food value of articles used as food. The cost of publishing such bulletins, publications and reports shall be paid in the same manner as other expenses of the department out of appropriations made therefor. Copies of the bulletins, publication and reports of the department may also be sold to the public at the estimated cost thereof, in accordance with a schedule of charges which the commissioner is hereby authorized to adopt. (Id. § 29.)

30. Annual Reports.—The commissioner shall cause to be prepared and submitted to the legislature each year, a report of the transactions of the department, including such part of the acts and proceedings of the department as he deems advisable to include therein, together with such information data and statistics in the possession of the department, as the commissioner shall deem of value to the Legislature and the people of the State. Such report shall contain a general review of the work of the departments and abstracts of investigations and hearings and copies of decisions and orders rendered or issued by the commissioner and contain such recommendations for legislation as in the opinion of the commissioner is required. The commissioner may require all agricultural societies receiving money from the State to make reports to the department, and may prescribe the form of such reports. (Id. § 30.)

31. Investigations and Proceedings.—1. The commissioner, or any officer of the department when authorized by the commissioner, may investigate and report as to all matters within or pertaining to the powers and jurisdiction of the department, and for the purposes of carrying into effect the provisions of this chapter or of any other law relative to matters within its jurisdiction and the rules of the department.

2. Proceedings may be instituted before the commissioner against a corporation, association or person upon the written complaint of any person or corporation aggrieved complaining of practices in the production, sale, transportation, purchase, storage, marketing and distribution of foods, in violation of any provision of law or the rules of the department or of the terms of an order issued pursuant to law by the commissioner, under the provisions of this chapter or of any other law the enforcement of which is within the jurisdiction of the department, or the rules of the department, made in conformity therewith.

3. Upon the presentation of such complaint the commissioner may cause inquiries to be made as to the matters alleged therein and if such complaint appears to present a sufficient cause for investigation a copy of such complaint shall be forwarded to the person, association or corporation complained of and answer may be made thereto in accordance with the rules of the department.

4. The commissioner shall thereupon cause the charges presented by such complaint to be investigated as herein provided, and such action shall be taken as the facts justify and as may be authorized by law. (C. L. 1923, c. 19, art. 3, § 32.)

32. Immunity of Witnesses.—No person shall be excused from testifying or from producing any books or papers in any investigation, hearing or inquiry, conducted pursuant to this chapter or the rules of the department when directed to do so by

the officer presiding at such investigation, hearing or inquiry, upon the ground that the testimony or evidence, books or documents, required of him may tend to incriminate him or subject him to penalty or forfeiture; but no person shall be prosecuted, punished or subjected to penalty or forfeiture, for or on account of any act, transaction, matter or thing concerning which he shall under oath have testified or produced documentary evidence and no testimony so given or produced shall be received against him upon any criminal action, investigation or proceeding, provided, however, that no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony. (Id. § 33.)

33. Practice on Hearings; Attendance and Examination of Witnesses.—1. The practice on all investigations and hearings conducted or instituted as provided in this chapter shall be governed by the rules of the department, and in all such hearings or investigations where testimony is taken, the commissioner, or other officer conducting the same, shall not be bound by the technical rules of evidence.

2. All subpœnas shall be signed and issued by the commissioner, assistant commissioner or the secretary of the department and may be served by any person of full age.

The fees of witnesses shall be audited and paid in the same manner as other expenses of the department. Whenever a subpœna is issued at the instance of a complaint, respondent or other party to the proceeding, the cost of the service thereof and the fees of the witness shall be borne by the party at whose instance the witness is subpœnaed.

A subpœna issued as herein provided shall be served in the same manner as a subpœna issued out of a court of record.

3. If a person subpœnaed to attend before the commissioner or other officer of the department, fails to obey the command of such subpœna, without reasonable cause, or if a person in attendance upon an investigation or hearing shall, without reasonable cause, refuse to be sworn or to be examined or to answer a question or to produce a book or paper, when ordered so to do by the officer or officers conducting such an investigation or hearing, or to subscribe and swear to his deposition after it has been correctly reduced to writing, if required so to do, he shall be guilty of a misdemeanor and may be prosecuted therefor in any court of competent criminal jurisdiction.

4. If a person in attendance upon an investigation or hearing refuses without reasonable cause to be examined or to answer a legal and pertinent question or produce a book or paper, when ordered so to do by the officer or officers conducting such investigation or hearing, the commissioner may apply to any justice of the Supreme Court upon proof by affidavit of the facts for an order returnable in not less than two nor more than five days directing such person to show cause before the justice who made the order, or any other justice of the Supreme Court, why he should not be committed to jail; upon the return of such order the justice before whom the matter shall come on for hearing shall examine under oath such person whose testimony may be relevant, and such person shall be given an opportunity to be heard; and if the justice determine that such person has refused without reasonable cause or legal excuse to be examined, or to answer a legal and pertinent question, or to produce a book or paper which he was ordered to bring, he may forthwith, by warrant, commit the offender to jail, there to remain until he submits to do the act which he was so required to do or is discharged according to law.

5. Any person who shall wilfully testify falsely as to any material matter pending in an investigation or proceeding under this chapter shall be guilty of perjury. (Id. § 34.)

34. Proceedings in Court.—If it appear after an investigation or hearing conducted as herein provided that any person, association or corporation is guilty of a violation of the provisions of this chapter or of any other act the enforcement of which is within the jurisdiction of the department, an action or proceeding may be instituted in a court of competent jurisdiction to recover a penalty for such violation or to compel a compliance with such provisions, or prevent a continuance of such violations. (Id. § 35.)

35. Orders and Service Thereof.—1. If it be ascertained after an investigation or hearing conducted as herein provided, that any person, association or corporation has failed to comply with or is guilty of a violation of the provisions of this chapter or of a rule of the department, or of any other general or special law relative to any matter within the jurisdiction of the department, an order may be made by the commissioner, under the seal of the department, compelling a compliance with such law or rule.

2. Every such order shall be served upon every person, association or corporation affected thereby, either by personal delivery of a certified copy thereof, or by mailing a certified copy thereof with postage prepaid to the person affected thereby, or

in case of a corporation or association, to an officer or agent thereof, upon whom a summons may be served in accordance with the provisions of the civil practice act.

3. It shall be the duty of the person, association or corporation upon whom such order is so served to notify the department forthwith, in writing, of the receipt of such order, and in the case of an association or corporation such notification must be signed and acknowledged by a person or officer duly authorized by such association or corporation to admit service. Within a time specified in the order, every person, association or corporation upon whom it is served must, if so required in the order, notify the department in like manner whether the terms of the order are accepted and will be obeyed.

4. Every such order shall take effect at a time therein specified, and shall continue in force either for a period to be designated therein or until changed or abrogated by the commissioner.

5. If such hearing is held before an assistant commissioner, a report shall be made upon the termination of the hearing to the commissioner, with recommendation as to the determination which should be made as to the issues raised on such hearing. If the commissioner find upon such report or upon a hearing conducted by him, that the rule or order complained of is reasonable and valid he shall render his decision ratifying or confirming such rule or order; if he find that such rule or order is unreasonable or invalid, he shall revoke or modify it, or substitute a new rule or order in its place. If such modified or new rule or order is substantially different from the rule or order complained of, the parties affected thereby may bring before the commissioner, by a new petition, in the manner above provided, objections to its reasonableness or validity.

6. The decision of the commissioner shall be final, unless within thirty days after its issuance one of the parties shall institute a proceeding for the review thereof, as provided in the next section. (Id. § 36.)

36. Review by Court.—Any person affected by a decision of the commissioner rendered as provided in the preceding section may institute a proceeding for the review thereof in the Supreme Court of the county of Albany or any county in which the department shall have established a branch office. Such proceeding shall be instituted against the commissioner as respondent by petition and on such notice as the court may prescribe. If reasonable grounds are shown for a review of such decision, the court shall direct that within a specified time a return may be filed with the clerk of the court, containing a certified copy of the testimony taken upon the hearing before the commissioner, together with copies of all papers, documents and records used therein. If the decision sought to be reviewed is one refusing a hearing on the ground that the issues have been determined in a prior proceeding, such return shall include a certified copy of the records of such prior proceeding. The court may of its own motion or upon motion of a party suspend the rule or order sought to be reviewed during the pendency of the review, and unless so suspended the rule or order shall remain in full force and effect.

The court shall thereupon determine the issues raised from the return so made and it may, where questions of fact arise which were not raised or disposed of upon the hearing, take additional evidence as to the matters involved in the proceeding. The court may refer any issue arising in such proceeding to the commissioner for further consideration. At any time during such proceeding the party applying for a review of the commissioner's decision may apply to the court, without notice, for an order directing all questions of fact arising upon one or more specified issues, to be tried and determined by a jury, and the court shall thereupon cause such questions to be plainly stated for trial, and the findings of the jury upon such questions shall be conclusive in the proceeding.

A proceeding instituted as provided in this section shall have precedence over other actions and proceedings in the same court to the same extent and subject to the same conditions as an action or special proceeding brought by or against the people of the State.

Appeals from the Supreme Court to the appellate division of the Supreme Court and to the Court of Appeals may be taken in such cases and subject to the same limitations as in other cases. (Id. § 37.)

37. When Injunction May be Obtained.—In an action in the Supreme Court for the recovery of a penalty or forfeiture incurred for the violation of any of the provisions of this chapter, or of any other law, the enforcement of which is within the jurisdiction of the department, or of the rules of the department, an application may be made on the part of the people to the court or any justice thereof for an injunction to restrain the defendant, his agents and employees from the further violation of such provisions. The court or justice to whom such application is made, shall grant such injunction on proof, by affidavit, that the defendant has been guilty of the violations alleged in the complaint, or of a violation of any such provision

subsequent to the commencement of the action. No security on the part of the plaintiff shall be required, and costs of the application may be granted or refused in the discretion of the court or justice. If the plaintiff shall recover judgment in the action for any penalty or forfeiture demanded in the complaint, the judgment shall contain a permanent injunction, restraining the defendant, his agents and employees from any further violation of such provision of this chapter or of any other law the enforcement of which is within the jurisdiction of the department or of the rules of the department. Any injunction, order or judgment obtained under this section may be served on the defendant by posting the same upon the outer door of the defendant's usual place of business, or where such violation was or is committed, or in the manner required by the civil practice act, and the rules and practice of the court. Personal service of the injunction shall not be necessary when such service cannot be secured with reasonable diligence, but the service herein provided shall be deemed sufficient in any proceeding for the violation of such injunction. (Id. § 38.)

38. Penalties for Violation of Chapter or Other Laws.—Every person violating any of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department shall, except where other penalties are hereinafter prescribed, be subject to a penalty in the sum of not less than twenty-five dollars nor more than one hunderd dollars for the first violation, nor more than two hundred dollars for the second and each subsequent violation. When such violation consists of the manufacture or production of any prohibited article, each day during which or any part of which such manufacture or production is carried on or continued, shall be deemed a separate violation. When the violation consists of the sale, or the offering or exposing for sale or exchange of any prohibited article or substance, the sale of each one of several packages shall constitute a separate violation, and each day on which any such article or substance is offered or exposed for sale or exchange shall constitute a separate violation. If the sale be of milk and it be in cans, bottles or containers of any kind and if the milk in any one of such containers be adulterated, it shall be deemed a violation whether such vendor be selling all the milk in all of his containers to one person or not. When the use of any such article or substance is prohibited, each day during which or any part of which such article or substance is so used or furnished for use, shall constitute a separate violation, and the furnishing of the same for use to each person to whom the same may be furnished shall constitute a separate violation. When the storage of any article is prohibited beyond a certain period, each day during which or any part of which any article is so stored beyond the period provided for by this chapter, shall constitute a separate violation.

A right of action for the recovery of, or a liability for, penalties incurred as provided in this chapter, or in any other law the enforcement of which is within the jurisdiction of the department, may be released, settled or compromised before the matter is referred to the Attorney-General, as provided in section forty-four of this chapter, and thereafter may be released, settled or compromised by the Attorney-General, either before or after an action is brought to recover such penalties. (Id. § 39.)

39. Penalty for Violation of Rule or Order.—Every person, association or corporation and all agents, officers and employees thereof, shall obey every order made as provided in this chapter, so long as such order shall be in force. A person, association or corporation who shall fail by himself, itself or through his or its agents, officers and employees, to obey any order of the commissioner, or who shall violate any rule of the department shall be subject to a penalty not exceeding the sum of two hundred dollars for each and every offense. Every violation of such order, or of the rules of the department, shall be a separate and distinct offense, and in case of a continuing violation, every day's continuance thereof shall be a separate and distinct offense. (Id. § 40.)

40. Violation of Chapter or Rule a Misdemeanor.—Except as otherwise provided by the penal law, a person who by himself or another violates any of the provisions of this chapter or of any other law the enforcement of which is within the jurisdiction of the department, or of any lawful rule of the department is guilty of a misdemeanor, and upon conviction shall, except as otherwise provided in this chapter, be punished by a fine of not less than twenty-five dollars, nor more than two hundred dollars, or by imprisonment for not less than one month, nor more than six months, or by both such fine and imprisonment, for the first offense; and by not more than one year's imprisonment for the second offense. (C. L. 1923, c. 19, art. 3, § 41; Supp. 1926, Id.)

41. Act of Officer or Agent Deemed Act of Principal.—In construing and enforcing the provisions of this chapter relating to penalties, the act of a director, officer, agent or other person acting for or employed by a person, association or corporation subject to the provisions of this chapter and acting within the scope of

his employment, shall be deemed the act of such person, association or corporation. (C. L. 1923, c. 19, art. 3, § 42.)

42. Evidence.—The doing of anything prohibited by this chapter shall be evidence of the violation of the provisions of this chapter relating to the thing so prohibited, and the omission to do anything directed to be done shall be evidence of a violation of the provisions of the chapter relative to the thing so directed to be done. The intent of any person doing or omitting to do any such act is immaterial in any prosecution for a violation of the provisions of this chapter. Any person who suffers, permits or allows any violation of the provisions of this chapter in any room or building occupied or controlled by him, shall be guilty of such violation and liable accordingly. Any person who shall keep, store or display any article or product, the manufacture or sale of which is prohibited or regulated by this chapter, with other merchandise or stock in his place of business, shall be deemed to have the same in his possession for sale.

Every certificate, duly signed and acknowledged, of a chemist, analyst or other expert employed by the commissioner or any analysis, examination or investigation made by such analyst, chemist or expert with respect to any matter or product which the commissioner has authority to examine or cause to be examined, shall be presumptive evidence of the facts therein stated. (Id. § 43.)

43. Prosecution for Penalties.—1. Whenever the commissioner shall know or have reason to believe that any penalty has been incurred by any person for a violation of any of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department, or of the rules of the department, or that any sum has been forfeited by reason of any such violation, the commissioner may report the facts to the Attorney-General who may cause an action or proceeding to be brought in the name of the people for the recovery of the same. Such action may be brought in the county where the defendant resides or the violation, or any part thereof, occurred.

2. In an action for a penalty or forfeiture incurred by reason of the violation of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department, or of the rules of the department, when the complaint charges a violation of any two or more of such provisions, the plaintiff shall not be compelled to elect between the counts under such different provisions but shall be entitled to recover if it is found that a violation of any of such provisions has been committed for which a penalty or forfeiture is imposed.

3. If the defendant in such an action shall prove that during any portion of the time for which it is sought to recover penalties or forfeitures for a violation of a rule or order of the department, the defendant was actually and in good faith prosecuting a suit, action or proceeding before the department or in the courts to set aside such rule or order, the court shall remit the penalties or forfeitures incurred during the pendency of such action or proceeding. (Id. § 44.)

44. Disposal of Fines and Moneys Recovered.—Except as otherwise expressly provided in this chapter, all moneys recovered, either as penalties, forfeitures or otherwise, for the violation of any of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department, or of the rules of the department, shall be paid into the treasury of the State. The same disposal shall be made of all moneys recovered upon any bond given by any officer by virtue of the provisions of this chapter. (Id. § 45.)

45. Prohibition as to Adulterated or Misbranded Food.—No person or persons, firm, association or corporation shall within this State, manufacture, produce, compound, brew, distill, have, sell, offer or expose for sale, or serve in any hotel, restaurant, eating house or other place of public entertainment any article of food which is adulterated or misbranded within the meaning of this article. (C. L. 1923, c. 19, art. 17, § 198.)

46. Adulteration of Food, Generally.—Food shall be deemed adulterated

1. If any substance be mixed or packed with it so as to reduce or lower or injuriously affect its quality or strength.

2. If any substance has been substituted wholly or in part for the article.

3. If any valuable constituent of the article has been wholly or in part abstracted.

4. If it be mixed, colored, powdered, coated or stained in a manner whereby damage or inferiority is concealed.

5. If it contain any added poisonous or other added deleterious ingredient which may render such article injurious to health, provided, that when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically or by maceration in water or otherwise, and directions for the removal of said preservative shall be printed on the package, the provisions of this article shall be construed as applying only when said products are ready for consumption.

6. If it consists in whole or in part of a filthy, decomposed or putrid animal or vegetable substance, or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter.

7. If it contains methyl or wood alcohol in any of its forms, or any methylated preparation made from it.

8. If produced or kept in unsanitary surroundings or in any environment or under any condition whatever that is inimical to its healthfulness or wholesomeness; provided, however, that no dealer or distributor shall be held responsible for any unsanitary condition of any premises or property not under his jurisdiction or control. (C. L. 1923, c. 19, art. 17, § 199; Supp. 1926, Id.)

47. Misbranding of Food.—An article of food shall be deemed to be misbranded

1. If it be an imitation of or offered for sale under the distinctive name of another article.

2. If the package containing it or its label shall bear any statement regarding such article, or the ingredients or substances contained therein, which shall be false or misleading in any particular.

3. If the package containing it or its label is falsely branded as to the State, Territory or country in which it is manufactured or produced.

4. If it be contained in or served in or from any bottle or receptacles falsely marked, labeled or branded as to the name of the person or corporation manufacturing the same. (C. L. 1923, c. 19, art. 17, § 200.)

48. When Food Not Deemed Adulterated or Misbranded.—An article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated, or misbranded, in the following cases:

1. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where such article has been manufactured or produced, and if it is not contained in, or served in, or from any bottle or receptacle falsely marked, labeled or branded as to the name of the person, persons or corporation manufacturing the same.

2. In case of articles labeled, branded or tagged, so as to plainly indicate that they are mixtures, compounds, combinations, imitations or blends; provided that the same shall be labeled, branded or tagged so as to show the character and constituents thereof; and provided further, that nothing in this article shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this article may require to secure freedom from adulteration or imitation. (Id. § 201.)

49. Guaranty Established.—1. 2. It shall be the duty of the commissioner immediately upon the discovery of evidence that any article of food is adulterated or misbranded within the meaning of this chapter, to notify in writing the dealer selling the same and no guaranty shall exempt any dealer from prosecution if he shall continue to sell such article after having received such written notice. (Id. § 214.)

50. Samples.—The commissioner is hereby empowered to enact, amend and repeal rules prescribing the number, nature and size of samples of food to be taken in the enforcement of this article. (Supp. 1926, c. 19, art. 17, § 214-a.)

51. Examination of Food Used in State Institutions; Farms at State Institutions.—The commissioner may examine food or food products produced or secured for use in the State institutions and make or cause to be made such other examinations as he may deem wise or as the facts seem to necessitate and warrant relative to such food and food products and relative to the agricultural methods at all farms connected with the State institutions under the jurisdiction and control of the Department of Charities, the Department of Mental Hygiene, the Department of Correction and the Division of Military and Naval Affairs in the executive department and report the results of such examinations and make recommendations thereupon to such departments and division respectively. 2. The term "cold storage," as used in this article, shall mean the storage or keeping of articles of food at or below a temperature above zero of forty-five degrees Fahrenheit in a cold storage warehouse.

3. The term "cold storage warehouse," as used in this article, shall mean any establishment or structure, or portion thereof, in which food is commonly stored and which is artificially cooled to or below a temperature above zero of forty-five degrees Fahernheit, except (1) a refrigerator vehicle used as such or (2) an establishment or structure or portion thereof used exclusively for storage of any article or articles for the sole use of the occupant, owner, or maintainer thereof, for consumption by himself or his family or guests, or (3) a temporary storage place as defined in this article.

4. The term "temporary storage place" as used in this article shall mean any establishment or structure, or a separate and distinct portion thereof, artificially cooled to or below a temperature of forty-five degrees above zero Fahrenheit in which food is stored for periods in no case exceeding thirty days. (C. L. 1923, c. 19, art. 19, § 230.)††

87. Temporary Storage.—Except when such place is used for the storage of food for the sole use of the occupant, owner or maintainer thereof for consumption by himself or his family or guests, no person, firm or corporation shall maintain or operate within this State any temporary storage place in which food is stored at a temperature below twenty degrees above zero Fahrenheit without a permit to be issued by the commissioner.‡‡ When such permit has been issued goods may be stored in such temporary storage place for periods not to exceed thirty days and must be marked with the day, month and year in which they were received for storage in such temporary storage place. days in any temporary storage place maintained at any temperature either above or below twenty degrees Fahrenheit. (Id. § 231.)

88. License to be Secured.—No person, firm or corporation shall maintain or operate within this State any cold storage warehouse, except when such warehouse is used exclusively for the storage of nuts, fruits, cheese, ice cream or vegetables, without a license to be issued, as prescribed in this article, by the department. Any person, firm or corporation desiring such a license shall, before beginning to maintain or operate a cold storage warehouse, make a written application for such license to the commissioner on or before the first day of September, and annually thereafter, stating the location of its plant or plants and such other facts as the commissioner shall prescribe. Any applicant desiring to begin the operation of a cold storage warehouse after the first day of October of any year shall, before beginning such operation, file a like application for a license therefor. On receipt of the application the commissioner shall cause an examination to be made into the sanitary condition of such plant or plants, and if found to be in a sanitary condition and otherwise properly equipped to be operated and maintained for cold storage warehouse purposes, the commissioner shall, upon payment of a license fee of twenty-five dollars, cause a license to be issued authorizing the applicant to operate a cold storage warehouse until the first day of October next following. An additional license fee of five dollars shall be paid by each applicant for the licensing of each separately operated cold storage plant in excess of one; and a separate license shall be issued for each such additional plant. In the event that any warehouse licensed under the provisions of this section, or any portion thereof, shall be deemed by the commissioner to be conducted in an insanitary manner, it shall be the duty of the commissioner to close such warehouse, or portion thereof, until it shall be put in satisfactory condition, and the commissioner shall have the power also to suspend the license in case the changes required shall not be made within a reasonable time. (C. L. 1923, c. 19, art. 19, § 232; L. 1927, c. 207, § 37.)

89. Reports of Holdings to be Rendered.—Every such licensee shall keep accurate records of the articles of food received in and the articles withdrawn from his warehouse or warehouses and shall submit reports to the department, upon printed forms to be provided by the department, setting forth in itemized particulars the quantity of each and every foodstuff in storage with, or in the control of, such licensee except such as are being held in temporary storage as provided in this article. Said report shall be filed on or before the fifth day of each month, and reports so rendered shall show conditions existing upon the last day of the preceding month. (Id. § 233.)

90. Cold Storage Food to be Marked.—No person, firm or corporation shall place, receive or keep in a cold storage warehouse any articles of food unless the same shall be plainly marked, branded, stamped or tagged, either upon the container in which they are stored or upon the article of food itself, with the day, month and year when the same is received in storage; and, except as hereinafter provided, no person, firm or corporation shall remove, or allow to be removed, such article of food from any cold storage warehouse unless the same shall be plainly marked, branded, stamped or tagged, either upon the container in which the said food is removed from storage or upon the food itself, with (a) the name and location of the warehouse where it has been in storage or such other designation for identifying the warehouse as may be approved by the commissioner, and (b) the words "cold storage," except that these words may be omitted when the date of removal is not more than thirty days subsequent to the date when such food was first placed in cold storage either within or without the State, and (c) the day, month and year when the food was received in storage, and (d) the day, month and year in which the said food was removed from storage. Such mark, brand, stamp or tag shall be prima facie evidence of such receipt, removal, and the dates thereof. In the case of food which is received from temporary storage for less than thirty days, the marks above required may be placed upon a tag to be attached either to the container or to the food itself, and if such food is withdrawn from storage within thirty days such tag may be removed. Food so received for temporary storage shall, for the purpose of identification, be placed separate and apart from other food. (C. L. 1923, c. 19, art. 19, § 234; Supp. 1926, Id.)

91. Leased Rooms.—Any person, firm or corporation operating and maintaining a cold storage warehouse who shall lease any room or rooms in such warehouse to any other person, firm or corporation for his or their private use for purposes of storage only shall file with the department, on a form to be provided by the commissioner, a description of such room or rooms with the name and address of the lessee. After such lease has been executed said lessee shall be held responsible for the sanitary condition of such room or rooms and except when such room or rooms are used for the storage of food for the sole use of the lessee for consumption by himself

or his family or guests, such lessee shall comply with the provisions of this article for the proper marking of the goods placed therein as provided in sections two hundred and thirty-one and two hundred and thirty-four. Such lessee shall also render a monthly report of the foods being held in such room or rooms as required of licensees by section two hundred and thirty-three and two hundred and forty-two unless such room or rooms have been designated as a temporary storage place as provided in sections two hundred and thirty and two hundred and thirty-one. (C. L. 1923, c. 19, art. 19, § 235; L. 1927, c. 207, § 37.)

92. Cold Storage Food When Sold Must be Represented as Such.—It shall be unlawful to sell, or to offer for sale, any article of food which has been held for a period of more than thirty days in cold storage either within or without the State, without representing the same to have been so kept. Any invoice or bill rendered for such foods shall clearly describe the commodities, using the words "cold storage goods." In case of transfer of ownership of foods while still held in cold storage the seller of the same shall notify the buyer in writing of the day, month and year in which said food was originally placed in storage. (C. L. 1923, c. 19, art. 19, § 236.)

93. Food to be Condemned.—No article of food shall be placed, received or kept in any cold storage warehouse or temporary storage place unless the same is in an apparently pure and wholesome condition. The commissioner may seize and condemn any articles of food in any cold storage warehouse or temporary storage place which are found to be unfit for human consumption, and such articles of food shall be destroyed or otherwise disposed of so as to prevent their being used for food, under such conditions as he shall prescribe. (Id. § 237.)

94. Time That Cold Storage Foods May be Kept.—It shall be unlawful for any person, firm or corporation, to keep or permit to remain in any cold storage warehouse, any article of food which has been held in cold storage, either within or without the State, for a longer aggregate period than twelve calendar months. The commissioner may, from time to time, upon application in writing, extend the period of storage beyond twelve months for any particular article of food, provided such food is found, upon examination by the department, to be in wholesome condition for further storage. The length of time for which such further storage is allowed shall be specified in the order granting the extension of time, and a copy of the order shall be furnished to the warehouse in which such food is stored. In case any article which has been in cold storage in another State shall be placed in storage in any cold storage warehouse in this State, the mark, brand, stamp or tag thereon, if any, shall be presumptive evidence of such storage and of the period of such storage. Any person, firm or corporation to whom a license to operate a cold storage warehouse has been granted under the provisions of this article who shall receive or hold in such warehouse any food owned by another person, firm or corporation, shall send to such owner a written notification to remove such food at least two weeks prior to the expiration of the time limit of twelve calendar months, and it shall be a sufficient defense to an action, civil or criminal, against such a licensee for keeping or permitting to remain in any cold storage warehouse any article of food belonging to another person after the expiration of such time limit that such notice was duly given. (C. L. 1923, c. 19, art. 19, § 238; Supp. 1926, Id.)

95. Transfer of Food.—The transfer of any food from one cold storage warehouse to another or from one temporary storage place to another for the purpose of evading any provisions of this article is hereby prohibited.

Articles of food stored in containers shall not be removed from the same while in a cold storage warehouse or temporary storage place for the purpose of further storage or for repacking or for removal from the warehouse or temporary storage place unless each individual unit of said articles or the containers in which they are repacked shall be marked in a manner identical with the marking, if any, on the original container; provided, however, that the name of the warehouse where such goods were previously stored may be omitted in such marking. If such repacked goods have been taken from original packages, stored on different dates and commingled, the repacked goods shall be marked in a manner identical with the marking on that one of the original packages which has been in cold storage for the longest period. (C. L. 1923, c. 19, art. 19, § 239.)

96. Removal of Cold Storage Marks.—It shall be unlawful for any person to alter, mutilate, destroy, obscure, obliterate or remove any mark required by this article to be placed on any article of food or the container thereof while the same is being held in storage or for purposes of resale, except that tags may be removed from food withdrawn from storage within thirty days, as provided in section two hundred and thirty-four. (Supp. 1926, c. 19, art. 19, § 240.)

97. Prohibits Return of Food to Cold Storage When Once Released for Purpose of Placing Same on Market for Sale.—When food has been in cold storage and is released therefrom for the purpose of placing the same on the market for

sale it shall be a violation of the provisions of this article to again place such food in cold storage, except when such goods have actually been sold and are being held for delivery on order from the purchaser thereof and have not already been in cold storage for a period longer than twelve months. (C. L. 1923, c. 19, art. 19, § 241.)

98. Articles of Food Stored for Export.—The provisions of this article shall not apply to any articles of food held in cold storage awaiting shipment to any foreign country, except that such food when received or placed in cold storage shall be marked in such manner as to indicate the day, month and year when it is received for storage; but if such articles of food be not actually exported, this section shall not exempt such articles of food from the operation of this article. When such articles of food are placed in cold storage awaiting shipment to any foreign country they shall be further marked with the words "for export" and with a lot number which shall serve to identify the same in the books and records kept by the licensee. On the fifth day of each month every licensee shall submit a report to the department, setting forth in itemized particulars the date received, the lot number and the quantity and kind of foodstuff in such lot, of all articles of food being held in cold storage awaiting shipment to any foreign country as the same existed on the last day of the preceding month. Immediately following removal from cold storage of any lot or portion of such lot hereinbefore mentioned the licensee shall submit a report of such removal to the department, stating the lot number of the food removed, the date when placed in cold storage, the date removed from cold storage, the quantity and kind of foodstuff removed from cold storage, the name and address of the consignee, the port of export and the permit number under which export is to be made. (C. L. 1923, c. 19, art. 19, § 242; L. 1927, c. 207, § 37.)

99. Powers of Department.—The department,* through the commissioner,* is hereby invested with full power and authority to inspect and supervise all places in this State now used or hereafter to be used for cold storage or temporary storage purposes, and for such purpose shall be vested with all the powers granted by this article or under any other article of this chapter. The power of supervision hereby granted shall extend to enable the commissioner to adopt such reasonable rules and regulations as may be determined upon from time to time as essential to the proper protection of the consumer of the commodities kept and preserved in such place or places. (C. L. 1923, c. 19, art. 19, § 243.)

Confectionery.†

100. Adulteration of Confectionery.—An article of confectionery shall be deemed adulterated if it contain terra alba, barytes, talc, chrome yellow or other mineral substances or poisonous color or flavor or other ingredient deleterious or detrimental to health. (C. L. 1923, c. 19, art. 17, § 202.)‡

Definitions.—The term "milk" when used in this article means the whole, fresh, clean, lacteal secretion obtained by the complete milking of one or more healthy cows, properly fed and kept, excluding that obtained within fifteen days before and five days after calving or such longer period as may be necessary to render the milk practically colostrum free.

The term "pure cream" or "unadulterated cream," when used singly or together, means cream taken from pure unadulterated milk.

The term "milk and cream" when used means a mixture of milk and cream which contains at least ten per centum of milk fat.

2. Milk containing less than eleven and one-half per centum of milk solids.
3. Milk containing less than three per centum of fats.
4. Milk drawn from cows within fifteen days before and five days after parturition.

5. Milk drawn from animals fed on distillery waste or any substance in a state of fermentation or putrefaction, except ensilage, or on any unhealthy food.

6. Milk drawn from cows kept in a crowded or unhealthy condition; or milk produced or kept in insanitary surroundings or in any environment or under any condition whatever that is inimical to its healthfulness or wholesomeness.

7. Milk from which any part of the cream has been removed.

8. Milk which has been diluted with water or any other fluid, or to which has been added or into which has been introduced any foreign substance whatever.

All adulterated milk shall be deemed unclean, unhealthful, impure or unwholesome.

The term "adulterated cream" when used means cream containing less than eighteen per centum of milk fat or cream to which any substance whatsoever has been added.

The term "skimmed milk" when used means milk, as hereinbefore defined, from which part or all of the cream has been removed, but which is otherwise unadulterated, except in respect to an excess in the per centum of water or fluids or a deficiency in the per centum of milk fat or milk solids contained therein, provided the same shall contain at last eight and one-half per centum of milk solids.

The term "butter" when used means the product of the dairy, usually known by that term, which is manufactured exclusively from pure, unadulterated milk or cream or both with or without salt or coloring matter and containing not less than eighty per centum by weight of milk fat.

The term "cheese" when used means the product of the dairy, usually known by that term, which is manufactured exclusively from pure unadulterated milk or cream or both with or without coloring matter, salt, rennet, sage, olives, pimentos, walnuts, peanuts, tomatoes, celery salt, or onions, added thereto as a flavor; provided that when manufactured by adding to the elemental product of the dairy usually known by the term "cheese," and manufactured exclusively from pure, unadulterated milk or cream, or both, any pimentos, olives, walnuts, peanuts, celery salt, tomatoes or onions the percentage of all such substances so added shall not exceed twenty-five per centum in bulk of the manufactured product.

The terms "oleomargarine," or "butterine," mean any oleaginous substance manufactured, sold or exposed for sale, as a substitute for, and to take the place of, butter and not made exclusively of pure or unadulterated milk or cream, or any article or substance into which any oil, lard or fat not produced from milk or cream enters as a component part, or into which melted butter or butter in any condition or state or any oil thereof has been introduced to take the place of cream. (C. L. 1923, c. 19, art. 4, § 46; Supp. 1926, Id.)*

102. Care and Feed of Cows, and Care and Keeping of Milk.—No person shall keep cows, for the production of milk for market or for sale or exchange, or for manufacturing the milk or cream from the same into any article of food, in a crowded or unhealthy condition or in unhealthful or unsanitary surroundings and no person shall keep such cows or the product therefrom in such condition or surroundings or in such places as shall cause or tend to cause the produce from such cows to be in an unclean, unhealthful or diseased condition, if the produce from such cows is to be sold, offered or exposed for sale upon the markets for consumption or to be manufactured into any food product, nor shall such cows or the produce therefrom be handled or cared for by any person suffering with or affected by an infectious or contagious disease, nor shall any such cows be fed on any substance that is in a state of putrefaction or fermentation, or upon any food that is unhealthful or that produces or may produce impure, unhealthful, diseased or unwholesome milk. But this section shall not be construed to prohibit the feeding of ensilage.

No person having milk in his possession for the purpose of selling the same for consumption as such or for manufacturing the same into butter, cheese, evaporated or condensed milk or other food shall keep the same in utensils, cans, vessels, rooms or buildings that are unclean or have insanitary surroundings or drainage or in any condition whatsoever that would tend to produce or promote conditions favorable to unhealthfulness or disease. The commissioner† shall notify all persons violating this section to clean said utensils, cans, vessels, rooms or buildings or to so improve the sanitary conditions that the foregoing provisions will not be violated; and if such notice is complied with within ten days no prosecution, civil or criminal, for a violation of this section shall be instituted. (C. L. 1923, c. 19, art. 4, § 47.)

103. Receptacles to be Cleansed Before Returning; Receptacles May be Seized; Evidence; Violation.—Whenever any can or receptacle is used for transporting or conveying milk, cream or curd to market for the purpose of selling or furnishing the same for consumption as human food, or for manufacturing into

human food, which can or receptacle, when emptied, is returned or intended to be returned to the person so selling, furnishing or shipping such substance to be again thus used, or which is liable to continued use in so transporting, conveying, selling or shipping such substance as aforesaid, the consumer, dealer or consignee using, selling or receiving the milk, cream or curd from such can or receptacle, shall, before so returning such can or receptacle remove all substances foreign to milk therefrom, by rinsing with water or otherwise. When any such milk, cream or curd is sold within any city of this State or shipped into any such city, the fact of such shipment or sale shall be prima facie evidence that the same was so shipped or sold for consumption as human food or to be manufactured into human food. When any such can or receptacle is returned or delivered or shipped to any person or creamery so selling such substance within, or shipping the same into such city, it shall be deemed that such can or receptacle is liable to such continued use in so selling or shipping such substance therein for consumption as human food within the meaning and purposes of this article. No person shall place or suffer to be placed in any such can or receptacle any sweepings, refuse, dirt, litter, garbage, filth or any other animal or vegetable substance, nor shall any such consignee or other person through himself, his agent or employee, bring or deliver to any person or railroad or other conveyance any such can or receptacle for the purpose of such return, or any milk, cream or curd can or receptacle for the purpose of delivery or shipment to any person or creamery engaged in so selling or shipping such substances for consumption as human food, which can or receptacle contains such foreign substance or which has not been rinsed as herein provided. The word "curd" as used in this article applies to the substance otherwise known as "pot cheese" or "cottage cheese." Whenever any such can or receptacle is used, returned, delivered or shipped in violation of this article every such use, return, delivery or shipment of each such can or receptacle shall be deemed a separate violation thereof. Such cans or receptacles so used, returned, delivered or shipped in violation of this article may be seized by the commissioner, his assistants or agents and held as evidence of such violation. (Id. § 48.)

104. Insanitary Cans and Receptacles Condemned.—All cans, or receptacles used in the sale of milk, cream or curd for consumption, or in transporting or shipping the same to market or the delivery thereof to purchasers for consumption as human food, when found by the commissioner or his assistants or agents to be in unfit condition to be so used by reason of being worn out, badly rusted, or with rusted inside surface, or unclean or insanitary or in such condition that they can not be rendered clean and sanitary by washing, and will tend to produce or promote in milk, cream or curd when contained therein, bad flavors, unclean or unwholesome conditions favorable to unhealthfulness or disease, shall be condemned by the commissioner or his assistants or agents. Every such can or receptacle when so condemned shall be marked by a stamp, impression or device, designed by the commissioner, showing that it has been so condemned, and when so condemned shall not thereafter be used by any person for the purpose of so selling, transporting or shipping milk, cream or curd. (Id. § 49.)

105. Prohibiting the Sale of Adulterated Milk, Imitation Milk, Adulterated Cream, Imitation Cream and Regulating the Sale of Milk and Cream Mixed and Ice Cream.—No person shall sell or exchange or offer or expose for sale or exchange, any unclean, impure, unhealthy, adulterated or unwholesome milk or any cream from the same, or any unclean, impure, unhealthy, adulterated, colored, or unwholesome cream, or sell or exchange, or offer or expose for sale or exchange, any substance in imitation or semblance of cream, which is not cream, nor shall he sell or exchange, or offer or expose for sale or exchange, any such substance as and for cream, nor shall he sell, or exchange, or offer or expose for sale or exchange any substance in imitation or semblance of milk which is not milk, or sell or exchange, or offer or expose for sale or exchange any article of food made from such milk or cream or manufacture from any such milk or cream any article of food. No person shall sell or exchange or offer or expose for sale or exchange any product as and for "milk and cream" containing anything except pure milk and cream mixed together and which does not contain at least ten per centum of milk fat. No person shall sell or exchange or offer or expose for sale or exchange any product as and for "ice cream" which does not contain at least eight per centum of milk fat and at least eighteen per centum of milk fat and milk solids not fat combined.

Any person delivering milk, cream, or "milk and cream" to any butter or cheese factory, condensary, milk gathering station or railway station to be shipped to any city, town or village shall be deemed to expose or offer the same for sale whether the said milk is delivered or consigned to himself or another. Each and every can thus delivered, shipped or consigned, if it be not pure milk, must bear a label or card upon which shall be stated the constituents or ingredients of the contents of the can. (C. L. 1923, c. 19, art. 4, § 50; Supp. 1926, Id.)

106. Regulating the Sale of Certified Milk.—No person shall sell or exchange, or offer or expose for sale or exchange, as or for certified milk, any milk which does not conform to and is not produced in accordance with the regulations prescribed by a milk commission appointed by a county medical society, chartered by the medical society of the State of New York, and unless such commission shall certify that such milk was produced under conditions prescribed by it, and adopted as standard by the American Association of Medical Milk Commissions; neither shall any person sell or exchange or offer or expose for sale or exchange, as and for certified milk, any milk which is not free from antiseptics, added preservatives, pathogenic bacteria or bacteria in excessive numbers. All milk sold as certified milk shall be conspicuously marked on the outer cap with the name of the commission certifying it. (C. L. 1923, c. 19, art. 4, § 50-a.)

107. Milk Inspection.—The commissioner or his agent, in inspecting milk for the purpose of analysis, shall take duplicate samples thereof and shall seal both samples, and shall tender, and, if accepted, deliver one sample to the person from whom the milk was taken. When samples are taken from the producer of the milk sampled or his agent, at a place other than the dairy where the milk was produced, the commissioner or his agent shall within ten days thereafter, with the consent of the producer, take duplicate samples of the mixed milk of the herd of cows from which the milk first sampled was drawn, and shall deliver one such sample to the producer or his agent and shall submit the other to analysis. If upon analysis it proves to contain no higher percentage of milk solids, or no higher percentage of fat than the sample first taken, then no action shall lie against the producer for violation of subdivisions one, two, three, seven and eight of section forty-six of this chapter. If the producer refuses to allow such herd sample to be taken, then the producer shall be precluded from offering any evidence that the milk from which the first sample was taken was just as it came from the cow. (Id. § 51.)

108. Presumptions in Regard to Cream and Skim Milk.—When cream is separated or skimmed from milk at any station or establishment where milk is received from producers for the purpose of selling the same or shipping the same to market for consumption as food and the supply of milk on hand thereat at the time of the next regular daily shipment of milk therefrom, consisting of the total amount of milk in such shipment, together with that remaining on hand immediately after such shipment, is not thereby decreased or correspondingly less than the total quantity received during any period extending from some point of time before such skimming was done until the time of such shipment, together with the amount of milk on hand at the commencement of such period, and such decrease is not equal in amount to the quantity of milk that must have been used in so separating such cream in addition to the quantity otherwise there used or disposed of during such period, such fact is conclusive that skim milk or other foreign substance was added to such milk supply within such period and shall be presumptive evidence within the meaning of this section that the same was added to each can or vessel of milk in such shipment. When cream or skim milk is found to have been on the premises of any such station or establishment or is sold or shipped therefrom, such cream or skim milk so found or so sold or shipped therefrom shall be presumed to have been produced by separating or skimming at such station or establishment. In any action or proceeding relative to the adulteration of milk by removing cream therefrom or adding skim milk or other foreign substance thereto, it shall be presumed that when cream has been produced by so skimming or separating or butter has been manufactured, there was made at least five quarts of milk in the production of each quart of cream so produced and there was necessarily so produced thereby at least four quarts of skim milk to each quart of cream so produced, and that there was used at least nine quarts of milk in the production of each pound of butter so manufactured. (Id. § 52.)

109. Regulations in Regard to Manufactories, Plants or Places Where Milk or Cream is Brought or Received.—No person shall sell, supply or bring to any butter or cheese factory or to any plant or place which manufactures a food product from milk or which ships or sells milk for consumption any milk diluted with water, or any unclean, impure, unhealthy, adulterated or unwholesome milk, or milk from which any of the cream has been taken, except pure skim milk to skim-cheese factories. No person shall sell, supply or bring to be manufactured to any butter or cheese factory or to any plant or place which manufactures a food product from milk or which ships or sells milk for consumption any milk that is sour or from which has been kept back any part of the milk commonly known as strippings, except pure skim milk to skim-cheese factories. The owner or proprietor or the person having charge of any such manufactory, plant or place where milk is received for any such purpose, not buying all the milk used by him, shall not use for his own benefit, or allow any of his employees or any other person to use for his own benefit, any milk, cream, butter or cheese or any other product thereof, brought to such factory, with-

out the consent of the owners of such milk or the products thereof. Every such manufactory, plant or place not buying all the milk used, shall keep a correct account of all the milk or cream daily received, of the number of packages of butter and cheese made each day, and the number of packages and aggregate weight of cheese and butter disposed of each day; which account shall be open to inspection to any person who delivers milk to such manufactory, plant or place. Every purchaser or receiver of milk from the producer thereof, for manufacturing purposes or for reselling the same, shall on written request therefor, tender daily thereafter at time of delivery to such producer, or to the person delivering such milk to such purchaser in behalf of such producer, a written statement of the amount of milk so received or purchased until or unless such producer notifies such purchaser in writing that he no longer desires such statement; such statement shall give, first, the name of the producer or seller, second, the date of delivery, third, the amount so delivered, fourth, shall be signed by the purchaser or his duly authorized representative; such statement shall be given in the terms of the unit used as a basis for determining the value thereof. Such purchaser or receiver shall, at each periodical time of payment for such milk, give each such producer, so delivering milk, a statement showing the amount of milk delivered during the periodical time for which payment is made, and the average per centum of butter fat test of same, provided payment is made on basis of butter fat content.

Any person having charge of a milk gathering station or establishment as aforesaid shall keep a true and correct monthly record of the receipts of milk or other dairy products received at such station or establishment, and also a true and correct monthly record of all sales or shipments of milk, cream or other dairy products shipped or sold from such station or establishment, and shall also keep a true and correct monthly record of the amount of skim milk produced in such station or establishment and of the disposition of said skim milk. Such record shall be preserved at such station or establishment for at least two years after the same shall have been made and such records shall at all times be open to the inspection of the commissioner, his assistants or agents. When cream is sold or shipped from any such station or establishment so selling or shipping milk for consumption as aforesaid, each original bottle or package of one quart or less of cream so shipped or sold shall bear a label securely attached to the side of such bottle or package on which shall be conspicuously printed the word "cream" in black letters of at least one-fourth of an inch in length or else the word "cream" shall be blown in the side of such bottle in plain raised letters of at least one-half an inch in length, and the top and side of each and every other original package or can containing cream or original crate or case containing bottles of cream so shipped or sold shall bear a label securely attached on which shall be conspicuously printed the word "cream" in black letters of at least one inch in length and also a plainly written or printed statement on the label stating from whom and what station the same is shipped and the name of the consignee and point of destination and date on which the cream therein was produced by such separation or skimming. The shipment of each and every such original package of cream so shipped and not so labeled as herein required shall constitute a separate violation. (Id. § 54.)

110. Skim Milk, Whey, Buttermilk or Separator Slop to be Heated Before Used for Feeding.—Any person, firm, association or corporation owning or operating any butter factory, cheese factory or other milk plant, shall, before returning, delivering or giving to any person or persons any skimmed milk, whey, buttermilk or separator slop, to be used for the feeding of domestic animals, cause such skimmed milk, whey, buttermilk or separator slop to be uniformly heated to a temperature of not less than one hundred and fifty degrees Fahrenheit and held at such temperature for at least twenty minutes. No skimmed milk, whey, buttermilk or separator slop from such butter factory, cheese factory or other milk plant shall be used for the feeding of domestic animals until heated as provided herein. (Id. § 55.)

111. Purchase of Milk and Cream on Milk Fat Basis.—Whenever such manufacturers or owners of such manufactories, plants or places receive or purchase milk or cream upon the basis of the amount of milk fat contained therein and use for ascertaining the amount of such fat a volumetric method or whenever the proceeds of co-operative creameries or such manufactories, plants or places are alotted on the basis of determinations of milk fat by the bottles and pipettes used in such determinations shall, before use, be examined by the director of the New York Agricultural Experiment Station. If such bottles and pipettes are found to be properly constructed and graded so as to accurately show the amount of milk fat contained in milk or cream, each piece shall be legibly and indelibly marked "S. B." Any such bottles and pipettes which on such examination are found to conform to the standard specifications promulgated by the United States Bureau of Standards, shall be deemed to be so properly constructed and graded. No bottles or pipettes shall be so marked

or used in any such test by such manufacturers or owners or proprietors of such manufactories, plants or places, except as herein provided. The acid or other chemicals used in making such test shall be of the required strength and purity to accurately determine the amount of milk fat in milk or cream and shall be examined from time to time by competent persons employed by the department* and if found not to be of sufficient strength or purity the use of such acid or other chemicals shall be deemed a violation. No person or persons receiving or purchasing milk or cream upon the basis of the amount of fat contained therein, shall credit any patron or patrons delivering milk or cream thereto with a greater or lesser percentage or average percentage of milk fat than is actually contained in the milk or cream so delivered. The department or persons employed by it for that purpose may at any time assist in making tests of milk or cream received at such manufactories, plants or places for the purpose of determining the efficiency of tests usually made at such manufactories, plants or places. No person shall use other than standard bottles and pipettes or acid or other chemicals which are of the required strength and purity to accurately determine the amount of fats in milk or cream. Corporations, associations or persons hereafter buying milk or cream from producers of milk or cream to be paid for on the basis of the percentage of milk fat contained therein and for that purpose taking samples therefrom to form a composite sample to be tested periodically to determine its value on such basis, shall, at the request of the producer, take such samples in duplicate and subject them to the same treatment. At the end of the period for which the composite sample was taken such corporation, association or person shall tender same to the producer thereof or to his authorized agent and give such producer, or his said authorized agent, the choice of one of the two composite samples so taken, both of which shall be sealed. Such producer is hereby permitted to send such duplicate composite sample so received to the head of the Department of Dairy Industry of the College of Agriculture at Cornell University within ten days from the receipt thereof, properly marked for identification, and shall accompany same with his name and post office address. Such department head shall cause such sample to be tested for the per centum of milk fat and shall send a report of such test to the producer from whom it was received within ten days or as soon thereafter as possible. Corporations, associations or persons hereafter testing samples of milk or cream taken from milk or cream bought or received from producers, where the value thereof is determined by the milk fat content, shall reseal the remaining portion of the sample from which the test was made, and in the case of milk keep the same for at least ten days and in the case of cream keep the same for at least one day after the making of such test for the purpose of permitting the commissioner or his duly authorized representative to examine and test the same.

Corporations, associations or persons making such tests of samples of milk or cream so purchased or received shall, immediately after such tests are completed, prepare a list containing the names or numbers of the producers whose milk or cream was so tested and place opposite each such producer's name or number the percentage of milk fat found to have been contained in the sample of milk or cream representing the milk or cream delivered by each such producer. Such lists so prepared shall be made with indelible pencil or ink and shall be filed in the plant or place where such milk or cream is bought or received, and each such list shall be duly signed by the person making such tests and preparing such lists, and such person shall place beneath his signature the number of the State license under which he is testing. All such lists shall be kept as a record for at least one year and shall be open to examination at all times by the commissioner or his duly authorized representative. At any time, upon request of any producer, the purchaser or receiver of such milk or cream shall permit such producer to examine such part of said record as contains information concerning the samples of milk or cream representing the milk or cream delivered by such producer. Without the written permission of the commissioner, no sample of milk or cream so tested by the purchaser or his representative shall be tested at a plant or place other than the one where received, nor without such permission shall any such sample of milk be removed from any such plant or place within ten days from the date of testing, nor shall any such sample of cream be removed therefrom within one day from such date of testing. (Supp. 1926, c. 19, art. 4, § 56; L. 1927, c. 207, § 17.)

112. Determination of Bacteria in Milk or Cream Purchased on the Basis of Bacterial Count.—In manufactories, plants or places receiving or purchasing milk or cream upon the basis of the bacterial count of such milk or cream, using either the cultural or microscopic method for ascertaining the bacterial count, or where the proceeds of co-operative creameries or such manufactories, plants or places are allotted on the basis of determinations of the bacterial count, the pipettes used in

such determinations shall, before use, be examined by the director of the New York Agricultural Experiment Station. If such pipettes are found to be properly constructed and graded so as to accurately deliver the amount of liquid required for examination, each of them shall be legibly and indelibly marked "S. B." No pipettes shall be so marked except as herein provided or used in any such examination unless so examined and marked. No person or persons receiving or purchasing milk or cream upon the basis of the bacterial count shall credit any patron or patrons delivering milk or cream with a larger or smaller bacterial count than that obtained by the actual examination herein provided of the milk or cream so delivered. The commissioner or persons employed by him for that purpose may at any time assist in making the bacterial count of milk or cream received at such manufactories, plants or places for the purpose of determining the accuracy of the count made at such manufactories, plants or places. Persons using other than standard pipettes or crediting any patron or patrons delivering milk or cream with a larger or smaller bacterial count than that obtained by the actual count of the bacteria in the milk or cream so delivered and examined by the method or methods herein provided shall be deemed to have violated the provisions of the agriculture and markets law.* (C. L. 1923, c. 19, art. 4, § 56-a; L. 1927, c. 207, § 18.)

113. Licensing of Persons in Charge of Milk-Gathering Stations, Manufactories or Plants and of Persons Making Milk-Fat Tests.—1. No person shall take charge, either as superintendent, manager or otherwise, of any milk gathering station, manufactory or plant where milk or cream is received from producers for sale or resale or for manufacture, unless licensed by the commissioner.

2. No person shall test milk or cream by the Babcock or other volumetric method, for the purpose of determining the amount of milk fat contained therein, where the result of such test is used as a basis for payment for such milk or cream, or for official inspection, or for public record, unless licensed by the commissioner.

3. Application for a license, or licenses, shall be made upon a form prescribed by the commisisoner. The applicant shall furnish satisfactory evidence of good moral character and shall give proof of his ability to perform the functions for which a license is applied, to the satisfaction of the commissioner. The applicant shall pay a license fee of two dollars to the commissioner for remittance to the State treasury. The commissioner, in his discretion may combine in one license authority to take charge of a milk gathering station, manufactory or plant, and to test milk or cream by the Babcock or other volumetric method. A license shall be for a period not exceeding five years, and may be renewed, in the discretion of the commissioner, for successive periods of not exceeding five years each upon payment of a license fee of one dollar to the commission† for remittance to the State treasury.

Each license shall be kept at the place where the licensee is employed and shall be open to inspection.

A license may be revoked by the commissioner, after a hearing upon due notice to the licensee, for false statement in the application, dishonesty, incompetency, inaccuracy or a violation of the provisions of this article, and a license to take charge of a milk gathering station, manufactory or plant may also be revoked for dishonesty, incompetency, inaccuracy, or a violation of the provisions of this article by any person working under the direction of the licensee and subject to his orders. (Supp. 1926, c. 19, art. 4, § 57; L. 1927, c. 216.)

114. Licensing of Persons Making Bacterial Counts of Milk and Cream.—No person shall test milk or cream in order to determine the bacterial count by the cultural, microscopic or other methods where the result of such test is used solely as a basis for payment to the producer for such milk or cream, unless licensed by the commissioner. Application for such license shall be made upon a form prescribed by the commissioner. The applicant shall furnish satisfactory evidence of good moral character and shall demonstrate his ability to make such tests by an examination under the direction of the commissioner. The applicant shall pay a license fee of two dollars to the commissioner for remittance to the State Treasurer. A license shall be for a period not exceeding five years. A license may be renewed in the discretion of the commissioner, without an examination, for successive periods of not exceeding five years each upon payment of a license fee of one dollar to the commissioner for remittance to the State Treasurer. Each license shall be kept at the place where the licensee is engaged in testing milk and shall be open to inspection. A license may be revoked by the commissioner, after a hearing upon due notice to the licensee, for dishonesty, incompetency, inaccuracy or a violation of the provisions of this article. (Supp. 1926, c. 19, art. 4, § 57-a.)

No person shall manufacture, sell or offer for sale or exchange in hermetically sealed cans, any evaporated or condensed milk unless put up in packages upon which shall be distinctly labeled or stamped the name of the person or corporation by whom made or the name of the wholesale dealer selling or offering the same for sale and the brand by which or under which it is made or sold. When evaporated or condensed milk shall be sold from cans or packages not hermetically sealed, the producer shall brand or label the original cans or packages with the name of the manufacturer of the milk contained therein, provided, however, that no unsweetened evaporated or condensed milk shall be sold or offered for sale in containers not hermetically sealed, unless the proportion of milk solids shall be the equivalent of eleven and one-half per centum of milk solids in crude milk, and of which milk solids twenty-five per centum shall be fats. (C. L. 1923, c. 19, art. 4, § 58; Supp. 1926, Id.)

116. Manufacture and Sale of Imitation Butter Prohibited.—No person by himself, his agents or employees, shall produce or manufacture out of or from any animal fats or animal or vegetable oils not produced from unadulterated milk or cream from the same, oleomargarine in imitation or semblance of natural butter produced from pure, unadulterated milk or cream of the same; or mix, compound with or add to milk, cream or butter any acids or other deleterious substance or any animal fats or animal or vegetable oils not produced from milk or cream, so as to produce any article or substance or any human food in imitation or in semblance of natural butter, nor sell, keep for sale or offer for sale any article, substance or compound, made, manufactured or produced in violation of the provisions of this section, whether such article, substance or compound shall be made or produced in this State or elsewhere. Any person manufacturing, selling, offering or exposing for sale any commodity or substance in imitation or semblance of butter, the product of the dairy, shall be deemed guilty of a violation of this chapter, whether he sells such commodity or substance as butter, oleomargarine or under any other name or designation whatsoever and irrespective of any representations he may make relative to such commodity or substance. Any dealer in any article or product, the manufacture or sale of which is prohibited by this section, who shall keep, store or display such article or product, with other merchandise or stock in his place of business, shall be deemed to have the same in his possession for sale. (C. L. 1923, c. 19, art. 4, § 59.)

117. Manufacture or Mixing of Animal Fats With Milk, Cream or Butter Prohibited.—No person shall manufacture, mix or compound with or add to natural milk, cream or butter any animal fats or animal or vegetable oils, nor make or manufacture any oleaginous substance not produced from milk or cream, with intent to sell the same as butter or cheese made from unadulterated milk or cream or have the same in his possession with such intent; nor shall any person soliciting or taking orders for the same or selling or offering any such compound so made or produced for sale represent the same to be butter or cheese, the product of the dairy. No person shall coat, powder or color with annatto or any coloring matter whatever, butterine or oleomargarine or any compound of the same or any product or manufacture made in whole or in part from animal fats or animal or vegetable oils not produced from unadulterated milk or cream by means of which such product, manufacture or compound shall resemble butter or cheese, the product of the dairy; nor shall he have any such substance so made in his possession with intent to sell the same nor shall he sell, offer or expose the same for sale; any person who shall keep, store or display any such article or product with other merchandise or stock in his place of business shall be deemed to have the same in his possession for sale. No person by himself, his agents or employees, shall manufacture, sell, offer or expose for sale butter that is produced by taking original packing stock or other butter or both and melting the same, so that the butter fat can be drawn off, then mixing the said butter fat with skimmed milk or milk or cream or other milk product and rechurning the said mixture, or that is produced by any similar process and is commonly known as boiled or process butter, unless he shall plainly brand or mark the package or tub

If the same shall be put up, sold, offered or exposed for sale in prints or rolls, then said prints or rolls shall be labeled plainly with printed letters in a conspicuous place on the wrapper with the words "renovated butter" or "process butter." If the same is packed in tubs or boxes or pails or other kind of a case or package the words "renovated butter" or "process butter" shall be printed on the top and side of the same in letters, at least one inch in length, so as to be plainly seen by the purchaser. No person manufacturing, selling or offering for sale any oleaginous substance not made from pure milk or cream from the same, designed to take the place of butter, and the sale of which is not prohibited by any of the provisions of this article shall make or sell the same under any brand, device or label bearing words indicative of cows or the product of the dairy or the names of breeds of cows or cattle, nor use terms indicative of processes in the dairy in making or preparing butter; no oleaginous substance not made from pure milk or cream from the same, designed to take the place of butter, and the sale of which is not prohibited by any of the provisions of this article shall hereafter be sold, offered or exposed for sale in this State except it be sold in packages containing not more than five pounds, such packages to be wrapped and plainly and conspicuously labeled with the word, "Oleomargarine" in Gothic or equally conspicuous letters at least one-quarter of an inch high. No device or brand shall be imprinted upon any brick or portion of the substance itself unless the word "Oleomargarine" is also indented thereon in letters equal in size to those used in expressing any brand or word used by the manufacturer. When no display is made except a device, the said word "Oleomargarine" shall be so indented in letters not less than one-fourth of an inch high, and in all cases the word "Oleomargarine" shall be equally displayed with any brand or word used by the manufacturer, in close proximity

(C. L. 1923, c. 19, art. 4, § 62; Supp. 1926, Id.)

120. (Id. § 64.)

122. Butterine, Imitation Cheese and Similar Products Not to be Purchased by Certain Institutions.—No money appropriated by law for maintenance and support in whole or in part of a State institution; nor money received by a charitable, benevolent, penal or reformatory institution from the State, or from a county, city or town thereof, or appropriated by such county, city or town for the maintenance or support in whole or in part of such institution; nor money belonging to or used for the maintenance or support of such institution, shall be expended for the purchase of, or in payment for, butterine, oleomargarine, or articles or products in imitation or semblance of natural butter or cheese produced from pure unadulterated milk or cream from the same, which articles or products have been rendered or manufactured in whole or in part from animal fats, or animal or vegetable oils not produced from unadulterated milk or cream from the same; nor shall any such money be expended for any condensed milk from which the butter fat has been removed and a vegetable or other oil has been substituted therefor. (Id. § 65.)

123. Purchase, Sale and Use of Butterine and Similar Products Prohibited in Certain Institutions.—No officer, manager, superintendent or agent of an institution mentioned in the last section, shall purchase for the use of such institution articles or products, for the purchase of which the money appropriated by law, or by a county, city or town, is forbidden to be used by said section, and no person shall sell to, or for the use of such institution, such articles or products. Every such brand or label shall be used upon the outside of the cheese and shall bear a different number for each separate factory. The commissioner shall keep a book, in which shall be registered the name, location and number of each manufactory using the brands or labels, and the name or names of the persons at each manufactory authorized to use the same. No such brand or labels shall be used upon any other than whole-milk cheese or packages containing the same. (Id. § 67.)

125. Use of False Brand Prohibited; Branding of Skim-Milk Cheese Regulated.—No person shall offer, sell or expose for sale, in any package, butter or cheese which is falsely branded or labeled. No person shall sell, offer or expose for sale cheese commonly known as cheddar cheese or stirred curd cheese made from skimmed or partially skimmed milk unless the same is branded to show that it is skim-milk cheese. All such cheese so sold, offered or exposed for sale shall be branded with the words "skim-milk cheese," or if such cheese contains thirteen per centum of milk fat or over, it may be branded "medium skim-milk cheese," or if it contains eighteen per centum of milk fat or over, it may be branded "special skim-milk cheese." Cheese known as cheddar cheese, cheddar style cheese, stirred curd cheese, twin cheese, flats, daisies, daisy twins, longhorns and young Americas containing more than forty per centum of moisture shall when sold, offered or exposed for sale be branded or marked conspicuously with the words "cheddar cheese excess moisture." The term "cheddar cheese" when used herein, shall be deemed to mean cheese made by the cheddar process, from heated and pressed curd obtained by the action of rennet on whole milk, and which contains not more than forty per centum of water, and, in the water-free substance, not less than fifty per centum of milk fat.

Cheese known as "washed curd cheese" shall not be manufactured, sold, offered or exposed for sale upon the markets of this State unless it is branded or marked conspicuously with the words "wash curd cheese." Any such cheese containing more than forty-two per centum of moisture shall be branded or marked conspicuously with the words "washed curd cheese excess moisture." The branding herein provided shall be upon the sides of both the cheese and the container and shall be in block letters at least one-half inch square. (C. L. 1923, c. 19, art. 4, § 68; Supp. 1926, Id.)

126. County Trade-Marks.—At a regular or special meeting of a county dairymen's association in any county of the State there may be adopted a county trade-mark, by a majority of the members present and voting, to be used as a trade-mark by a person manufacturing pure unadulterated butter or full-cream cheese in such county. The secretary of the association shall forthwith send to the commissioner a copy of such trade-mark, which copy he shall place on file in his office, noting thereupon the day and hour he received the same. But one county trade-mark for butter and for cheese shall be placed on file for the same county. No association shall adopt any trade-mark of any county already on file, or use that of any other county in the formation of a trade-mark. (C. L. 1923, c. 19, art. 4, § 69.)

127. Branded Cans, Jars or Bottles Not to be Sold, Re-marked or Used Without Consent of Owner.—No person shall hereafter without the consent of the owner use, sell, dispose of, buy or traffic in any milk can, jar or bottle, or cream can, jar or bottle, having the name or initials of the owner stamped, marked or fastened on such can, jar or bottle, or willfully mar, erase or change by remarking or otherwise said name or initials of any such owner, so stamped, marked or fastened upon said can, jar or bottle. Nor shall any person without the consent of the owner place in any such can, jar or bottle, any substance or product other than milk or cream. (Id. § 70.)

128. Registration of Mark; Defacing Mark; Seizure.—Any person owning milk cans, jars or bottles upon which he has placed or desires to place any designating mark may register the said designating mark with the commissioner, who shall keep a record thereof, and he may also register with the commissioner, from time to time, the number of such cans, jars or bottles which he has or is to have, which do or may bear such designating mark. Such cans, jars or bottles may, after such registration be numbered consecutively and such consecutive numbers may be registered in the department, as above provided, with the designating mark. If any such can, jar or bottle, bearing such designating mark, shall be found in the possession of, and being used by any person other than the one so registering the same it shall be presumptive evidence of a violation of the provisions of this article, unless such person has the consent of the owner thereof to so have and use the same.

No person, except the original owner thereof, or a person duly authorized by him so to do, shall remove, deface or erase any of the marks upon the cans, jars or bottles herein provided for.

When the commissioner, or any person duly authorized by him, shall find any such cans, jars or bottles, bearing such registered designating mark, in the possession of or being used by another person than the owner thereof, he may seize the same, and if evidence is produced in three days showing that such person had been given permission to have or use such cans, jars or bottles, then they shall be delivered by the commissioner, or his agents, to the person from whom taken, otherwise the commissioner shall notify the owner of such cans, jars or bottles that he has the same and upon application deliver the same to such owner. (Id. § 71.)

The commissioner may adopt and enforce rules concerning the equipment for and the method of the sanitary production of milk and may provide for the examination and scoring of dairies in accordance with such rules. He may also prescribe such rules as may be necessary for disinfecting and cleaning premises, buildings, railway cars, boats and other objects, from or by means of which infection or contagion of animals may be spread or conveyed. (C. L. 1923, c. 19, art. 5, § 75.)

130. Examination of Cattle.—The commissioner may cause a physical examination and a tuberculin test to be made by competent veterinarians of dairy cows whose milk is marketed in liquid form or manufactured into butter, cheese or other food for human consumption. Such examinations and tests may be made as frequently as available funds appropriated will permit, and as conditions, in the opinion of the commissioner, necessitate. An examination and test made by any qualified and approved veterinarian may be accepted by the commissioner. If, from such examination or test, any animal be deemed by the commissioner to be infected with tuberculosis or any other communicable disease or its condition be such as to render it undesirable for the production of milk or a menace to the health of other animals or persons, such animal shall be immediately removed from the herd, slaughtered or otherwise disposed of as the commissioner may prescribe. (C. L. 1923, c. 19, art. 5, § 78; L. 1927, c. 213.)

130a. Examination at Request of Owner; Segregation; Grading of Herds.—The owner of a herd of cattle kept for dairy or breeding purposes within the State may apply to the commissioner for examination of his herd by the tuberculin or other approved tests, subject to the following regulations: . . .

(4) Subject to the rules of the commissioner, an animal found to be diseased after such examination may continue to be used for breeding purposes but the milk from such animal shall not be used for any purpose until pasteurized at such temperature and for such period as the commissioner may prescribe.

(5) The young of any such diseased animal shall immediately be separated from its mother and shall not be permitted to receive or be fed the milk from such affected animal until such milk has been pasteurized as provided in subdivision four of this section. . . . (C. L. 1923, c. 19, art. 5, § 79.)

131. Assistance of Local Officers in Enforcing Article.—The commissioner* may call upon the sheriff, under-sheriff or deputy sheriff in a county to carry out and enforce the provisions of any notice, order or regulation which he may make pursuant to this article, and every such officer shall obey every order and instruction received from him in the premises. The expense incurred by any such officer in carrying out and enforcing the provisions of such notice, order or regulation shall be a State charge, to be audited by the commissioner and paid from the treasury on the warrant of the comptroller in the same manner as other State charges are paid, notwithstanding the provisions of any local or special act fixing or limiting the compensation or expenses payable by the county to its sheriff, under-sheriff or a deputy sheriff. If a city or part thereof be included in any notice, order, rule or regulation of the commissioner made under this article, the commissioner may call upon the commissioner of public safety or the police department of such city to enforce the same within the city or portion thereof affected; and the commissioner of public safety or police department shall obey every order or instruction so made or issued; and the expenses incurred therefor shall be a State charge. (C. L. 1923, c. 19, art. 5, § 93; L. 1927, c. 207, § 21.)

132. Commissioner and Employees Are Peace Officers.—For the purpose of enforcing the provisions of this article, the commissioner,* assistant commissioners

*Commissioner of Agriculture and Markets. See Nos. 2 and 52 et seq.

and other officers and employees of the department* shall be deemed peace officers and have all the rights and powers of peace officers. (C. L. 1923, c. 19, art. 5, § 94.)

133. Definition; Licenses; Application.—When used in this chapter, the terms "milk gathering station," "manufactory" or "plant" shall include a place where milk or cream is received from producers for sale or resale or for manufacture, with or without facilities or equipment for the preparation of milk or cream for market or for manufacture; and shall also include an office or other place of business where milk or cream is purchased from producers for sale or resale or for manufacture, with or without physical facilities in connection therewith for the receiving or the physical handling of milk or cream.

No person or corporation buying milk or cream from producers shall operate a milk gathering station, manufactory or plant where milk or cream is received or purchased from producers for sale or resale, or for manufacture, unless licensed by the commissioner. Application, upon a form prescribed by the commissioner, shall be made on or before August first in each year, for the license year beginning September first following. The applicant shall satisfy the commissioner of his or its character, financial responsibility and good faith in seeking to operate a milk gathering station, manufactory or plant. The commissioner if so satisfied shall issue to such applicant, on payment of ten dollars, a license entitling the applicant to operate milk gathering stations, manufactories or plants within the State until the first day of September next following. The license may designate the place or places where such milk gathering stations, manufactories or plants are to be operated. A license shall not be issued unless the applicant shall execute and file with the application a bond, or shall be relieved from filing of bond as provided in the next section. (C. L. 1923, c. 19, art. 21, § 252; L. 1927, c. 416.)

134. Bond; Form; Enforcement of.—The bond required by the last section shall be upon a form prescribed by the commissioner, shall be in the sum of not less than five thousand dollars, shall be executed by a surety company authorized to do business in this State, and shall be conditioned for the faithful compliance by the licensee with the provisions of this chapter, and for the prompt payment of all amounts due to producers who have sold milk or cream to such licensee, during the period that the license is in force. The bond shall be approved by the commissioner.

Upon default by the licensee in the payment of any money due for the purchase of milk or cream, the creditor may file with the commissioner, upon a form prescribed by him, a verified statement of his claim. If such creditor shall have reduced such claim to judgment or shall thereafter reduce such claim to judgment, a transcript of such judgment shall also be filed with the commissioner.

Upon default by the licensee in any of the conditions of the bond, an action upon the bond shall be brought by the commissioner. All moneys collected upon such bond shall be applied by the commissioner, first, to the payment ratably of all verified claims promptly filed with the commissioner after reasonable notice to present claims arising during the license period in connection with which the bond was given and the balance shall be paid into the State treasury.

A licensee shall from time to time, when required by the commissioner, make and file with the commissioner a verified statement of his or its disbursements during a period to be prescribed by the commissioner, containing the names of the producers from whom milk and cream were purchased, and the amount due to the vendors thereof. If it appears from such statement or from facts otherwise ascertained by the commissioner that the security afforded to producers selling milk and cream to such licensee by the bond does not adequately protect such producers, the commissioner may require such licensee to give an additional bond in a sum to be determined by the commissioner, but not exceeding by more than twenty-five per centum the value of the maximum amount of milk and cream purchased from producers in any one month, and not exceeding in any event one hundred thousand dollars.

If the applicant for a license under this section be a person or a domestic corporation, the commissioner may, if satisfied from an investigation of the financial condition of the applicant that the applicant is solvent and possessed of sufficient assets to reasonably assure compensation to probable creditors, by an order filed in the department, relieve such person or corporation from the provisions of this section requiring the filing of a bond. (Id. § 253.)

135. Power of Commissioner to Investigate.—The commissioner shall have power to investigate the record of any person or corporation applying for or holding a license, or any transaction in connection with the operation of a milk gathering station, manufactory or plant as provided in this article; and for such purpose may examine the books of account or other documents or records of any applicant or

licensee and may take testimony therein under oath; but information relating to the general business of any applicant or licensee disclosed by such investigation and not relating to the immediate purpose thereof shall be deemed of a confidential nature by the commissioner. (Id. § 254.)

136. Granting and Revoking Licenses.—The commissioner may decline to grant a license or may revoke a license already granted when he is satisfied of the existence of the following cases or either of them:

1. Where the applicant or licensee has made a general assignment for the benefit of creditors or has been adjudged a bankrupt, or is insolvent.

2. Where a money judgment has been secured against the applicant or licensee by any milk or cream producer and remains unsatisfied of record.

3. Where there has been a failure to make prompt settlements to producers from whom he buys milk or cream.

4. Where there have been combinations to fix prices.

5. Where there has been a continued course of dealing of such nature as to satisfy the commissioner of the inability or unwillingness of the applicant or licensee to properly conduct the business or of an intent to deceive or defraud customers, producers or consumers.

Where there has been a continued failure to keep records required by the commissioner or by law.

6. Where the licensee has been duly required to give an additional bond and has failed so to do.

The commissioner, before revoking or determining to revoke any license issued under the provisions of this article shall give the licensee ten days notice, personally or by mail, of the time and place of a hearing to determine whether such license shall be revoked. At such hearing the commissioner shall receive evidence and hear the licensee and shall thereafter file an order either dismissing the proceeding or revoking such license. (Id. § 255.)

137. Certiorari to Review.—The action of the commissioner in refusing to grant a license, or in revoking a license, shall be subject to review by writ of certiorari. (Id. § 256.)

138. Records to be Kept by Licensee.—Every operator of a milk gathering station shall keep, in such form as the commissioner may prescribe, a record of transactions of purchases of milk or cream by him. (Id. § 257.)

139. Offenses.—No operator of a milk gathering station, manufactory or plant where milk or cream is received from producers for sale or resale or manufacture shall (a) fail to make prompt payments for milk or cream purchased, or (b) make any false or misleading statement or statements enumerated in this article, or (c) enter into any combination to fix prices or (d) fail to conform to any requirement of or violate any provision of this chapter.

Each day's operation by a person or corporation buying milk or cream from producers without a license of a milk gathering station, manufactory or plant where milk or cream is received from producers for resale or manufacture shall constitute a separate violation of this chapter. (Id. § 258.)

140. Unlawful Detention of Milk Cans.—No person shall, without the consent of the owner or shipper, or his agent, use, sell, dispose of, buy or traffic in any can, irrespective of its condition, or the use to which it may have been applied, belonging to any dealer in or shipper of milk or cream in this State or which may be shipped to any town, village or city in the State, which can has the name or initials of such owner, dealer or shipper stamped, marked or fastened thereupon, or willfully mar, erase or change by re-marking or otherwise such name or initials.

If any person, without the consent of such owner, dealer or shipper, or his agent, uses, sells, disposes of, buys, traffics in or has in his possession or under his control any such can, it shall be presumptive evidence that such use, sale, disposal, purchase, traffic or possession is unlawful.

Any such owner, dealer or shipper, or his agent, may take possession of any can used in violation of this article wherever found, and if filled or partly filled with milk or cream, and the person in whose possession it is found does not, when requested, immediately empty the same, such owner, dealer or shipper, or his agent, may empty the same into the street or elsewhere, and shall not be liable for damages for any act done pursuant to the provisions of this article. (C. L. 1923, c. 21, art. 17, § 270.)

141. Penalty and Action to Recover.—Any person violating any provision of this article shall forfeit to such owner or dealer or shipper or his agent the sum of fifty dollars for every such violation, and an action may be brought therefor in the name of any such agent without joining the real party in interest that he represents, and in any such action brought for any such violation different persons may be joined as plaintiffs, whether jointly or severally interested therein, and different persons may be joined as defendants therein who have severally violated any such provisions, and a

recovery may be had in favor of one or more of such plaintiffs against one or more of such defendants.

Such action may be brought in a court of record having jurisdiction thereof, and the place of trial thereof shall in such case be laid in the county where the defendant resides at the time of the commencement thereof, or it may be brought in a justice's court or other court not of record having similar jurisdiction, in the town, city or county of which such court is constitued* and in which the defendant resides at the time of the commencement of the action. Any such action must be begun within one year after the cause of action accrued.

The municipal court of the city of New York shall have jurisdiction over actions brought under the provisions of this article against residents of said city and such court and the judges thereof shall in such actions have and exercise all the powers now conferred by said article on courts not of record, and the marshals of said court shall have to like extent the powers of constables provided in said article. (Id. § 271.)

142. Search Warrant.—If at the time of the issue of the summons in a court not of record, the plantiff or his agent make affidavit that he has reason to believe and does believe that any defendant has any such can or cans secreted upon his premises, the justice or other magistrate or court issuing the summons must, without requiring an undertaking, grant an order for the arrest of the defendant, which order shall also contain a direction to the officer to whom the same is issued, to immediately search the place or premises mentioned in said affidavit, and if any such can or cans are there found, to bring the same together with the defendant or other persons in whose possession said can or cans are found, before such justice, magistrate or court. The proceedings may be amended at any time by adding parties or otherwise as justice may require; and the judgment may provide for the disposition of the can or cans so found.

If upon the issue of any such process, the constable, or other officer, shall be unable to find the person or persons therein named, but shall find any can or cans, as therein set forth, he shall bring such can or cans before such justice or magistrate, who shall thereupon proceed to determine the right of such complainant thereto, and if upon such hearing had thereon he shall be satisfied that such can or cans rightfully belong to such complainant, or that he is entitled to the possession thereof, he shall forthwith deliver the same into his possession or the possession of his agent. (Id. § 272.)

143. Railroad or Steamboat Company May Act as Agent of Owner.—The several superintendents of the railroad companies, and the branches and connections thereof, and steamboat lines operating their roads or lines, or any portion thereof, in this State shall have power to collect, gather and take into possession from any person or whenever found thereupon, any cans belonging to any such owner, dealer or shipper, and return the same to such owner, dealer or shipper and may appoint an agent for that purpose, and such superintendent and such agent appointed by him shall have the same power and authority under this article as an agent of such owner, dealer or shipper.

The certificate of such superintendent appointing such agent duly acknowledged shall be presumptive evidence of the appointment and authority of such agent. (Id. § 273.)

144. Assistance of Policeman or Constable.—Any person authorized by this article to seize and take into his possession any such cans may, in case of resistance, call to his aid any police officer or constable of the town, village or city who shall when so called on assist him in seizing or taking possession of such cans. (Id. § 274.)

145. Skimmed Milk.—A person who sells or offers for sale, milk from which the whole or a part of the cream has been skimmed or removed, without disclosing the fact, or having a mark or label, plainly and legibly stating the fact, conspicuously affixed to every can or vessel containing the same, under circumstances not constituting an offense, for the punishment of which provision is otherwise specially made by statute, is guilty of a misdemeanor.† (C. L. 1923, c. 41, art. 40, § 438.)

The Commissioner of Agriculture and Markets shall have full authority to make rules and regulations for carrying out and enforcing the provisions of this act, provided however, that the grades or standards of quality established by him shall not permit the sale of any eggs for human consumption of poorer quality than permitted by the lowest grade or standard for edible eggs established from time to time by the United States Secretary of Agriculture. All rules, regulations and standards of quality and size or weight established under the authority of this statute shall have the force of law and shall be filed and open for public inspection in the office of the State Department of Agriculture and Markets. (Id. § 160-b.)

148. Retail Sale by Grade or Quality; Fresh Eggs; Definition.—It shall be unlawful for any person to sell, or offer to sell or expose for sale to a consumer any eggs intended for human consumption other than those of his own production without notifying by suitable sign or label the person or persons purchasing or intending to purchase the same of the exact grade or quality of such eggs, according to the standards prescribed by the Commissioner of Agriculture and Markets.

No person shall sell, offer for sale, or advertise for sale as fresh eggs, strictly fresh eggs, hennery eggs, or new-laid eggs, or under words or descriptions of similar import, any eggs which are not fresh. 149. Sales; Misrepresentation.—No person shall sell or offer for sale, or advertise for sale, eggs for human consumption if the package containing them or the label on them, or any advertising accompanying them, shall bear any statement or device regarding the eggs which may be false or misleading in any particular. Any such certificate so issued may be cancelled by the commissioner when it is shown that any statement upon which it was issued is false or misleading or if the manufacturer of the feeding stuffs which are manufactured, sold, offered or exposed for sale by the holder of such certificate shall refuse to allow access to the plant where the same is manufactured for the purpose of any inspection authorized by the provisions of this chapter, or if the manufacturer shall refuse to permit an examination of the plant where the particular brand of feeding stuffs so licensed is manufactured or the feeding stuffs and feeding stuff materials therein; provided, however, that a retailer having feeding stuffs in his possession for sale which he purchased during the time when the license was in force shall not be prohibited from selling the remainder of such goods on hand by virtue of the revocation of the license or by the fact that the year for which the license was issued has expired. Whenever a manufacturer, firm, association, corporation or person shall have filed the statement required by the last section and paid the license fee as prescribed in this section, no agent, seller or retailer of such brand of feeding stuffs shall be required to file such statement or pay such fee upon said brand during the year for which licensed, nor upon such goods so licensed remaining unsold in subsequent years which were purchased during the year for which it was licensed. For the purpose of this article, concentrated commercial feeding stuffs shall be considered as distinct and separate brands when differing either in guaranteed analysis, ingredients, name, brand or trade-mark. (C. L. 1923, c. 19, art. 8, § 133; Supp. 1926, Id.; L. 1927, c. 207, § 28.)

159. No person or persons shall bring or cause to be brought into any city, town or village any calf or carcass of the same or any part thereof for the purpose of selling, offering or exposing the same for sale, unless it is in a good healthy condition, and no person or persons shall bring any such calf or carcass of the same or any part thereof except the hide into any city, town or village for the purpose of selling, offering or exposing the same for sale, unless the calf is three weeks of age, or, if killed, was three weeks of age at the time of killing, provided, however, that the provisions of this section shall not apply to any calf or carcass of the same or any part thereof, which is slaughtered, sold, offered or exposed for sale, for any other purpose than food. Any person or persons exposing for sale, selling or shipping any calf or carcass of the same will be presumed to be so exposing, selling or shipping the said calf or carcass of the same for food. Any person or persons shipping any calf for the purpose of being raised, if the said calf is under three weeks of age, shall ship it in a crate, unless said calf is accompanied by its dam. Any person shipping calves under three weeks of age for fertilizer purposes must slaughter such calves before such shipping. Any person or persons duly authorized by the commissioner may examine any calf or veal offered or exposed for sale or kept with any stock of goods apparently exposed for sale, and if such calf is under three weeks of age, or the veal is from a calf killed under three weeks of age, or from a calf in an unhealthy condition when killed, he may seize the same and cause it to be destroyed and disposed of in such manner as to make it impossible to be thereafter used for food. 193. Shipping Veal; Receiving Veal for Shipment by Common Carriers.—It shall be unlawful for any corporation, partnership, person or persons to ship to or from any part of this State any carcass or carcasses of a calf or calves or any part of such carcass except the hide, unless they shall attach to every carcass or part thereof so shipped, in a conspicuous place, a tag, that shall stay thereon during such transportation, stating the name or names of the person or persons who raised the calf, the name of the shipper, the place of shipping and the destination and the age of the calf. No person or persons shall mutilate or in any way disfigure such tag in such way as to conceal information given thereon or render the same illegible. No railroad company, express company, steamboat company or other common carrier shall carrry or receive for transportation any carcass or carcasses of calves, or any part of the same except the hide, unless the said carcass or carcasses or parts thereof shall be tagged as herein provided. (Id. § 92.)‡

Salt.

199. Short Title.—This chapter shall be known as the "Salt Springs Law." (C. L. 1923, c. 53, art. 1, § 1.)

200. Definitions.—The term "Onondaga reservation," when used in this chapter, shall include all the lands situate in the county of Onondaga containing salt springs or used for the manufacture of salt, or owned by the people of the State and adjacent thereto, or connected therewith, or set apart for such purposes by the commissioners of the land office. The term, "manufacturer," when used in this chapter, shall include every corporation, company or individual having the direction, charge or control of the manufactory, whether as owner, proprietor or lessee thereof. (Id. § 2.)

201. Duty on Salt.—A duty of one cent per bushel of fifty-six pounds shall be collected and paid to the treasurer upon all salt manufactured from brine furnished by the State from the salt springs upon the Onondaga salt springs reservation in the county of Onondaga. (C. L. 1923, c. 53, art. 2, § 3.)

202. Onondaga Manufacturing Districts.—The Onondaga salt springs reservation shall be divided into such manufacturing districts as the superintendent may prescribe; and he may establish therein such public offices for the transaction of the business connected with the manufacture of salt as he may deem convenient. Such offices shall be kept open every day except Sundays and holidays, from sunrise to sunset, and during such hours any person may examine the books of entry kept by the superintendent. (Id. § 4.)

203. Superintendent of Onondaga Salt Springs; Office Abolished.—The office of superintendent of Onondaga salt springs is hereby abolished, and the term of office of the present superintendent shall expire, and his powers, duties and compensation cease and determine, at the time this amendment takes effect. The State Comptroller shall hereafter receive and collect all rents and revenues accruing or to accrue to the State under any lease or leases of salt springs property or otherwise and shall report annually to the legislature in the month of January, the amount of such rents and revenues received and his disbursements, if any, incurred in the performance of his duties in relation to said salt springs, during the preceding year, with the items thereof. The State Comptroller shall also hereafter have and exercise the powers and duties conferred, in terms, by other sections of this article on the superintendent of the Onondaga salt springs, except that until such time as the legislature shall make further provisions for the direct operation of the salt springs by the State, in the event of the expiration or forfeiture of existing or future leases, no deputies, inspectors or other subordinates shall be appointed or serve under the provisions of section twelve; and the various powers and duties enumerated in this article in respect to the examination, inspection and handling of salt and the inspection of the salt springs, their works and the manufacture of salt, are likewise suspended until the

resumption of such direct control by the State and further legislation in relation thereto. (Id. § 5.)

204. Powers of the Superintendent.—Such superintendent shall:

1. Have the possession, government and management of all lands, wood, timber, trees, buildings, erections, pumps and machinery of every kind, and of all water courses, conduits, wells, aqueducts, springs and other property belonging to the State on the Onondaga reservation and the Montezuma salt springs.

2. Superintend and have charge of the salt springs and of the manufacture and inspection of salt and regulate and control the delivery of salt water to salt manufacturers.

3. Daily examine or cause to be examined the cisterns attached to the several manufactories in order to discover any leaks or waste of salt water therefrom or from the logs or conduits leading the water to them and to discover any leak or waste of salt water, either by negligence or design, whether in the cisterns, logs or conduits or in the use of the water in any manufactory, or in letting the same into the cistern or in any other manner; and shall order the owner or other person occupying such manufactory or his agents or servants who may be present to immediately stop such leak or waste.

4. Cause any person wrongfully possessed of any land or property on the Onondaga reservation or the Montezuma salt springs to remove therefrom, and take possession of the same, and may sue in his name of office for the recovery of damages for any injury to such lands or property according to the nature of such injury.

5. Keep in each of his offices regular books of entry in which all of his accounts and transactions shall be entered.

6. Provide suitable books of entry, blank books, blank inspection bills, returns, forms and other stationery for the use of himself and his deputies for the performance of their official duties.

7. Receive all moneys payable to the State for the duties, rents, fines or penalties specified in this chapter or arising from the salt springs or property of the State connected with the salt manufactory.

8. Deposit each week to the credit of the State Treasurer in such bank or banks as may be designated by the Comptroller all moneys received by him as superintendent, and transmit every Monday to the Comptroller a statement showing the amount of the revenues collected, received and deposited during the preceding week.

9. Forward a statement to the Comptroller on the first Monday in each month exhibiting the whole amount of revenue collected during the preceding month and the amount in each week, with a transcript of the receiver's books in each of the manufacturing districts.

10. Prosecute in the name of the State all persons who shall knowingly trespass upon or injure any of the lands or property belonging to the State, who shall willfully damage any of the machinery, erections, fixtures or other property of the State and for the recovery of all such sums forfeited to the State.

11. Make a report annually to the Comptroller on September thirtieth or within ten days thereafter, stating the quantity of salt inspected during the previous year, the amount of revenues accruing thereon and from other sources, the expenditures made by the superintendent, and the amount which, in his judgment, will be necessary for the support of the salt springs for the ensuing year.

12. Make a report anually to the Legislature on or before January fifteenth, of his doings during the preceding year, embracing such information in regard to the manufacture of salt and the situation of public works and submitting such recommendations for their further improvement and extension as he shall deem necessary and proper. If the superintendent neglect to make the monthly return required by this section, or to make or transmit the certificate of such deposits to the Comptroller, the Comptroller shall order the superintendent's bonds to be put in suit for the recovery of any moneys which may be in his hands belonging to the State, and such neglect or omission of duty shall be deemed cause for the removal of such superintendent by the Governor. (Id. § 6.)

205. Further Powers and Duties of Superintendent.—The superintendent may:

1. Administer oaths to his deputies, foremen and employees in regard to the return of check rolls and other matters relating to their duties when he shall deem it necessary.

2. Require the officers appointed by him to perform such duties and services in behalf of the State as he may consider appropriate and necessary and remove them or either of them from office.

3. Establish and from time to time alter the boundaries of the inspection districts so as to allow of the inspection of salt at the offices most convenient to the officers in charge and to the owners of the salt works. (Id. § 7.)

206. Rules and Regulations.—The superintendent shall, annually, in the month of April, adopt rules and regulations for the guidance and direction of the salt manufacturers for the ensuing year, and may also, from time to time, establish such rules and regulations, not inconsistent with law, as he may deem expedient respecting:

1. The manufacture and inspection of salt and the collection of duties thereon.

2. The manner and order of receiving salt water from the State reservoirs and aqueducts, the mode of conducting it to the respective manufactories and the erections and securing it from waste and loss.

3. The examination of the several salt works and manufactories by his deputies to determine whether the provisions of the law are properly complied with.

4. The loading of salt in bulk, or otherwise, into boats to be transported upon the canals or the shipment of salt by railway, or otherwise, to be conveyed to market.

5. Such matters as shall tend to the more perfect execution of the provisions of this chapter.

Such rules and regulations shall take effect upon the expiration of one week from the time they are made and published, and shall be enforced until they are revoked or others are established in their stead. (Id. § 8.)

207. Penalties; Rules and Penalties to be Posted.—The superintendent may prescribe specific penalties not exceeding one hundred dollars for each offense for any violation of the rules and regulations established by him and recover the same in the name of the State with costs, and shall stop all communication between any salt block or manufactory and the State reservoir, if the person in charge of such block or manufactory shall refuse to comply with the provisions of law or the rules and regulations of the superintendent so that no salt water shall come to such block or manufactory until such provisions are complied with. Such rules and regulations and the several penalties prescribed thereby and by law shall be printed and posted conspicuously in the several offices of the superintendent, in all the fine salt manufactories and in the storehouses for coarse salt, and in the mills for grinding salt, and in such other places as shall be deemed expedient for the information of the public. (Id. § 9.)

208. Habitual Neglect to Comply With Rules.—The superintendent shall suspend for such length of time as he may deem proper, not exceeding three months at any one time, the right of any salt manufacturer to carry on his manufactory if such manufacturer shall habitually neglect the rules and regulations prescribed by the superintendent or by law, or shall be in the habit of making bad salt, or if the quantity of salt inspected from his manufactory shall be found materially less than is usually produced from a manufactory of the same capacity of kettles for the time it is actually in operation. (Id. § 10.)

209. Officers Not to be Concerned in Manufacturing.—No officer or employee connected with the salt springs shall be in any way concerned in the manufacture or sale of salt or have any interest whatever, directly or indirectly, in any salt manufactory or erection for the manufacture of salt, or in the profits of any such manufactory, or in any labor or materials, or contracts for doing any work on the salt reservations which may be done under the provisions of this chapter. (Id. § 11.)

210. Deputies and Inspectors.—The superintendent may by a written order filed in the clerk's office of Onondaga county appoint the following deputies and assistants: One deputy superintendent, who shall be the receiver and chief clerk (and in the case of the death, removal or resignation of the superintendent, possess his powers and discharge his duties until another superintendent shall be appointed); one chief engineer, one chief inspector of salt, each of whom shall receive an annual salary of twelve hundred dollars; three inspectors of salt, each of whom shall receive an annual salary of six hundred dollars; three block inspectors, each of whom shall receive a salary of sixty dollars for not more than eight months in each year; two receivers, each of whom shall receive an annual salary of eight hundred and forty dollars; one receiver, who shall receive an annual salary of five hundred and forty dollars; one overseer of pumps, who shall receive an annual salary of six hundred dollars; three overseers of pumps, each of whom shall receive the sum of fifty dollars a month for not more than eight months in each year; one superintendent of aqueducts and reservoirs, who shall receive an annual salary of six hundred and sixty dollars; three such superintendents, each of whom shall receive an annual salary of four hundred and eighty dollars; one chief inspector of barrels, who shall receive an annual salary of eight hundred and forty dollars; three assistant barrel

inspectors, each of whom shall receive a salary of fifty dollars a month while employed; two assistant barrel inspectors, each of whom shall receive fifty dollars a month for such time as their services are necessary; and such additional assistants, pumpers, inspectors, weighers and overseers as may be necessary during the business part of the season, each of whom shall receive not more than fifty dollars a month for not more than eight months a year. Before entering upon the duties of his office, each person appointed by the superintendent shall execute and deliver to him an official undertaking in amounts with sufficient sureties for the faithful performance of his duties and for the faithful and punctual payment to such superintendent of all moneys which such person shall from time to time receive, and as often and at such stated periods as may be required of him. A list of the names of all officers appointed by the superintendent shall be kept conspicuously posted in each of the receivers' offices in the several districts. (Id. § 12.)

211. Inspection of Salt.—The superintendent and his deputies charged with the inspection of salt shall carefully and constantly superintend its manufacture in the several fine and coarse salt manufactories, and examine and inspect such salt in the various stages of its production in the kettles, vats, bins and storehouses; and require inferior or impure salt to be separated from salt suitable for passing inspection, and to be either destroyed or returned to the cisterns to be dissolved or deposited in some proper place and disposed of as salt of second quality. No salt shall pass as good unless it is manufactured as directed by this chapter and by the rules and regulations of the superintendent, and is well made, free from dirt, filth, stones, admixtures of lime, ashes of wood and other substances injurious thereto, fully drained from pickle, and bitterns properly extracted therefrom. The superintendent shall allow salt made from the brine of the springs to be manufactured without extracting the bitterns or impurities therefrom, provided all such salt, whether shipped loose or in bags, barrels or packages, shall be designated and branded as impure and agricultural salt. Salt shall not be packed in casks, barrels, sacks or other vessels, or taken from the salt house in bulk or otherwise, until it has remained in the bin or storehouse at least fourteen days, and the inspectors shall have determined upon an actual examination that it is sufficiently drained of pickle and fit for inspection. No inspection shall be made after sundown or before sunrise, and no salt manufacturer shall retail or deliver any uninspected salt after sundown or before sunrise. No person shall remove or attempt to remove from the reservation or from any salt manufactory, storehouse or other place of deposit, any salt before it shall have been inspected, and the duties paid thereon, with intent to evade the inspection thereof or the payment of the duties thereon. Every person so removing or attempting to remove any salt shall forfeit to the State such salt, with the bag, barrel or other vessel in which it shall be contained, and five dollars for every bushel so removed or attempted to be removed; and the boat, vessel, cart, wagon, sled or other vehicle, in or by which the same shall be removed or attempted to be removed, with the apparel, tackle and team belonging thereto, shall be taken to be the property of such person and be liable to the payment of such penalty. (Id. § 13.)

212. Inspection of Salt; Property May be Taken for Evading Inspection.—The superintendent or any of his deputies may enter every barn, storehouse, inclosure or other place of deposit which he may suspect to contain salt so removed or attempted to be removed, and every boat, vessel, cart, wagon, sled or other vehicle in or by which such salt shall have been removed or attempted to be removed, and seize such salt, with the bag, barrel or other vessel containing it, and sell the same at public auction for the use of the people of the State, after giving six days' notice of the time and place of sale. The officer or person making such seizure may also seize such boat, vessel, cart, wagon, sled or other vehicle, with the tackle, apparel and the team belonging thereto and retain the same until the determination of any suit which may be brought for the penalty so imposed. The owner of the property so seized may obtain possession thereof by giving a bond to the superintendent, with sureties to be approved by him, for the return of such property to the officer, if judgment for the plaintiff shall be recovered in the suit brought for the forfeiture incurred, and to secure which such seizure shall have been made. (Id. § 14.)

213. By Whom Inspection Shall be Made.—Persons desiring to have salt inspected shall apply to the inspector in the district where such salt shall be, who shall thereupon actually examine it in the bag, barrel or vessel in which it is contained. In order to facilitate its examination, the person offering it shall unhead or bore the barrel or open the bag or other vessel containing it as directed by the inspector, so as to expose the salt to his touch, view and examination, and shall in all cases provide the necessary assistance to lift the salt while the inspector weighs or measures it. (Id. § 15.)

214. Examination of Kettles.—The inspectors shall daily examine in their respective districts all kettles used in the manufacture of fine salt, and shall require their removal if damaged or defective so as to be unsuitable for the manufacture of good salt, and if not removed upon his order the superintendent may withhold brine from such manufacturer until such order shall be complied with. (Id. § 16.)

215. Damaged Salt; Penalties.—The superintendent shall erase his inspection brand from packages containing salt which, after it has been inspected and the duties paid, shall have suffered any damage so as to reduce its weight or impair its quality, and require that it shall be repacked, if reduced in weight only, or destroyed, if impaired in quality, by returning it to the cisterns from which the owner or manufacturer thereof shall draw his supplies of brine for his works. Salt of any inferior quality, dirty, damaged or condemned, may be sold loose or in bulk at the works by the manufacturer thereof, the inspector designating quantity by weight in the inspection bill as in ordinary cases, and distinguishing the same as "second quality," and the person having it inspected paying the duty thereon. Such inferior salt shall not be mixed with other salt which is to be ground or prepared as table salt, or for the packing of provisions, nor shall it be packed in a manner calculated to deceive an innocent purchaser as to its real quality, and if packed in barrels in the ordinary manner it shall be branded in plain letters, "second quality." Every person violating the provisions of this section relating to mixing such salt with other salt or the preparing of it for table use or for packing purposes shall, for every such violation, forfeit to the people of the State the sum of one hundred dollars. The inspector or deputy who shall have inspected and branded any Onondaga salt put up in barrels or sacks which on being opened are found to contain salt of a quality inferior to that required by law, and the maker and manufacturer whose name is branded on any such barrel or painted on any such sack, shall forfeit to the purchaser injured thereby the sum of one dollar for each bushel so found inferior. (Id. § 17.)

216. Deleterious Ingredients Prohibited.—No salt manufacturer or other person shall put any article or ingredient into the salt water in his cisterns or while evaporating other than such as shall be allowed and approved of by the superintendent in the general rules and regulations which he shall adopt in relation thereto. Every person violating any provision of this section shall for every such offense forfeit to the State the sum of fifty dollars. (Id. § 18.)

217. Bittern Pans.—Every manufacturer shall keep one good bittern pan for each kettle or pan used in the manufacture of salt for the purpose of removing the feculent matter and other foreign substances held in solution in the brine during the process of making salt. The superintendent shall, in the rules and regulations adopted by him, regulate the manner of using such pans and of removing the impurities contained in the salt water during the process of manufacturing the same into salt, and the manner of cleansing the kettles and pans. (Id. § 19.)

218. Salt in Barrels.—The superintendent shall cause all salt barrels to be inspected before salt is packed therein, under such rules and regulations as shall from time to time be adopted and published by him, and all salt shall be rejected when offered for inspection in barrels not inspected or in inspected barrels not properly secured after the salt is packed therein so as to preserve it from waste or injury, and all barrels so used shall be such as are approved by the superintendent. Salt in barrels shall not be marked unless the barrels are thoroughly seasoned, stout and well made, with a sufficient number of good, strong hoops, to be well nailed and secured, not burned or colored on the inside or dirty on the outside, nor without having the holes made for inspection or the knot holes, if any, well and securely plugged up. If the salt upon examination shall prove not to be thoroughly drained, or if, when the barrels are standing on end, water shall exude therefrom, such barrel shall not be branded by the inspector, but the salt therein shall forthwith be emptied back into the bins, where it shall remain for a further period of fourteen days before it shall be lawful again to pack the same. (Id. § 20.)

219. Quantity of Salt in Barrels.—The superintendent shall from time to time specify the quantity of salt that barrels or other packages offered for inspection shall contain, and shall prohibit the inspector's brand from being placed upon any package that does not correspond with such regulation. He shall require that all ground salt manufactured at the Onondaga springs and put up for the market in barrels, kegs, boxes, sacks or bags, shall be legibly marked in letters at least half an inch in length, on each barrel, keg, box, sack or bag, with the word "solar" or "boiled," as the fact may be. (Id. § 21.)

220. Name of Manufacturer to be Branded on Package.—Every manufacturer shall brand or mark with durable paint every barrel or other package of salt manufactured by him with the name of the district in which his block of kettles is located, the surname at full length of the proprietor or owner of the manufactory at which the salt shall have ben made, and the initial letter of his Christian name. If

the salt shall have been manufactured for a company or association of individuals, he shall mark or brand in like manner upon every such barrel or other package, the name of the firm by which the company is called; and no inspector shall inspect or pass any barrel or other package of salt which shall not be so marked or branded, nor shall the superintendent affix his brand to any such barrel or other package. (Id. § 22.)

221. **Boat Sunk in Canal.**—The owner or agent of any boat laden in whole or in part with salt which shall be sunk or partly immersed in the canals or navigable waters of this State or filled with water so as to damage any part of the cargo of salt on board, shall not sell or otherwise dispose of the salt in the original package. Such salt shall be emptied from the barrels or sacks containing it and sold or disposed of after having been exposed to public inspection so that its quality and condition shall be known. Salt so injured shall not be again packed in barrels bearing the inspector's brand nor shipped or transported beyond the bounds of the State. Every person violating the provisions of this section shall forfeit the sum of two hundred and fifty dollars for every violation. (Id. § 23.)

222. **Duplicate Inspection Bills.**—The superintendent shall, after the inspector has ascertained the quality of salt in any parcel offered for inspection, and is satisfied that it is of such quality that it ought to pass inspection, deliver duplicate inspection bills thereof, dated and signed by him, to the person applying for the inspection. Such bills shall contain the name of the manufacturer and the person at whose instance the inspection is had, the number of bushels and pounds of salt contained in the parcel and the number of bags, barrels or other vessels in which it shall be contained, with a certificate of the inspector stating that he has inspected the salt specified in such bill. The person applying for inspection shall thereupon deliver such duplicate inspection bills to the receiver or person in charge of his office in the district where the salt is inspected and pay the duties on the salt mentioned therein. (Id. § 24.)

223. **Receiver's Duties.**—The receiver shall:

1. Mark such inspection bills with the numbers in the order in which they are presented, placing the same number on each duplicate bill of the same parcel, and commencing anew with the commencement of every month.

2. Enter upon his books an account of the parcels of salt in which he shall state the number of the parcel, the name of the manufacturer and of the person at whose instance the salt shall have been inspected, the number of bushels and pounds of salt in the parcel, the number of bags, barrels or other vessels in which it is contained, the amount of duties thereon and when the same are paid.

3. Sign a receipt at the foot of each duplicate inspection bill and deliver the same to the person paying the duties. (Id. § 25.)

224. **Delivery of Bills to the Inspector.**—The person receiving the bills shall forthwith deliver one to the inspector by whom the salt was inspected, to be entered in a book kept by him, and retain the other as evidence of payment of the duties thereon. Such inspector shall thereupon brand or mark with durable paint the barrel or cask containing the salt so inspected with his surname at length and the first letter of his Christian name, with the addition of the word "inspector" in letters of at least one inch in length; and shall mark upon the head of the barrel or cask with durable paint, the number of pounds of salt contained therein. Barrels, sacks or other packages in which salt shall have been packed and inspected, shall not be again used for the packing of salt therein until the marks or brands made by the superintendent shall be first effaced. The inspection shall not be deemed complete nor the payment of the duties consummated until one of the inspection bills so receipted shall have been returned to the superintendent, and the salt, in cask headed up, shall have been so marked or branded. Every person violating the provisions of this section relating to the packing of salt in barrels, sacks or other packages, before the marks or brands made by the superintendent shall have been effaced, shall forfeit to the State for every bushel of salt so packed the sum of five dollars. (Id. § 26.)

225. **Wells, Pumps and Lines of Aqueducts.**—The superintendent shall keep wells, pumps, reservoirs, aqueducts and machinery in necessary repair; but no repair involving any aggregate expenditure of more than five hundred dollars shall be made or undertaken without the approval of the Comptroller, to be indorsed upon detailed statements. Said superintendent may enter upon the lands of any corporation, individual or company or upon any leased lands, and carry salt and brine across the same in the same manner as hitherto, and by suitable and proper aqueducts and conduits, and shall maintain, repair and keep in proper condition for transmitting brine, the aqueducts and conduits heretofore laid by the State, its officers and agents, and may replace the same wherever situated by other aqueducts or conduits for transmitting brine, and shall provide and place such new machinery and fixtures as may be necessary to pump and distribute such brine, paying to the owner or lessee of such lands the damages

sustained by him, if he be legally entitled thereto, to be ascertained by mutual agreement, or by the appraisement of three commissioners appointed as prescribed in the condemnation law. (Id. § 27.)

226. Ascertainment of Quantity of Water.—The superintendent shall cause the quantity of water required for the efficient working of the pumps or other machinery for raising salt water from the wells and reservoirs now or hereafter to be constructed in any district, to be ascertained by competent engineers, and shall certify the same to the Superintendent of Public Works, who on receiving such certificate shall cause such quantity of water to be at all times supplied to the Syracuse level of the canal, in addition to that usually required or supplied for the purpose of navigation, except when it shall be necessary to withdraw the water from such level for repairs. The certificate shall be filed in the office of the Superintendent of Public Works, and the amount of water thus ascertained to be necessary may be drawn from the canal for such purposes by the superintendent of the Onondaga salt springs, provided the navigation of the canal be not thereby impeded. All bulkheads, gates and other appurtenances required for taking and regulating the flow of such water shall be constructed and maintained by the superintendent of the Onondaga salt springs; and any property taken by virtue of this section shall be paid for by agreement or appraisement in the manner prescribed in the condemnation law. (Id. § 28.)

227. Numerical List of Salt Blocks to be Kept.—The superintendent shall keep on file in each of the receivers' offices a numerical list of all the fine salt blocks containing the name of the owner or occupant of each, the several manufactories entitled to the first use of the water, and the date of any additional erections entitled to the surplus water in the order of their erection. A similar list shall also be kept of the coarse salt erections entitled to the first use of the water, including the number of covers or rooms; and of all subsequent erections entitled to supplies from the surplus. (Id. § 29.)

228. Distribution of Brine.—No distinction in the furnishing and distribution of brine to the fine and coarse salt erections from the Onondaga salt springs or wells shall be made between the works situated on the State lands and those built on private lands. If there be an insufficiency of brine to supply all such erections, the superintendent shall so classify them as to furnish a full supply of water to each in an equal portion of the time while such deficiency exists. The superintendent shall, during the months of July and August, so classify the erections for the manufacture of solar salt, but such classifications shall not give such erections a supply for more than an equal portion of the time. The superintendent shall not furnish brine to any erections for the manufacture of fine or coarse salt erected after April fifteenth, eighteen hundred and fifty-nine, either upon vacant lands or by doubling the blocks on lots then used and occupied for manufacturing purposes, until the quantity of brine raised and distributed by the State shall be sufficient for fully supplying all the works through the manufacturing season, without classifying the same for any part of the time. (Id. § 30.)

229. Cisterns; Repair of Buildings.—Every salt manufacturer who shall provide an earth reservoir for the storage of salt water may have such reservoir filled by the superintendent from any surplus not required for immediate distribution, and shall be allowed to use the same in addition to the ordinary supply to which such manufacturer may be entitled according to the provisions of this chapter. Every manufacturer of fine salt shall have two cisterns or reservoirs attached to and adjoining his manufactory. Such cisterns or reservoirs shall be well made and as free from leaks as may be, and shall each be of sufficient capacity to contain as much salt water as can be boiled or evaporated in such manufactory from the kettles or pans set therein, in two days. No manufacturer of fine salt who shall neglect to provide such reservoirs or cisterns or to keep the same in good repair so as to save the water from undue or unnecessary waste shall be entitled or permitted to receive any salt water from the State reservoirs. Every manufacturer shall keep his buildings, cisterns and appurtenances for the manufacture of salt in thorough repair, so that the salt manufactured by him shall not suffer damage or be impaired in quality after the same shall have been deposited in the bins or storehouses. If any such manufacturer shall neglect or refuse, upon the requisition of the superintendent to place his works in such a state of repair or to put them in a proper condition for the manufacture and preservation of good salt, he shall forfeit his right to the use of the salt water, and the superintendent may disconnect the communications betwen the State aqueducts and his cisterns until such manufacturer shall comply with the requisitions of the superintendent. (Id. § 31.)

230. Unauthorized Communications.—No manufacturer or other person shall open or aid, assist, counsel or advise in opening the communication between any manufactory or salt work and the logs or conduits leading to or connecting with the State reservoirs without the consent of the superintendent or one of his deputies.

Every person violating the provisions of this section shall forfeit to the State the sum of one hundred dollars for every such violation. The owners of any salt works surreptitiously receiving a supply of salt water by such means shall forfeit and pay to the State a like sum on demand of the superintendent; and in default of payment shall be deprived of his supply of water until such demand shall be complied with. (Id. § 32.)

231. Discharge of Laborers for Neglect.—The superintendent shall require the discharge of every boiler, packer or other laborer employed by any manufacturer who shall neglect or refuse to obey his or his deputies' directions in and about any salt works or manufactory respecting the manufacture, packing or care of salt produced by such manufacturer, and to be offered for inspection; and each person so discharged shall not be again employed by any person in the manufacture of salt, without the consent of the superintendent. (Id. § 33.)

232. Earthworks.—The superintendent may, whenever the construction of any earthwork requiring the services of an engineer shall be undertaken by him, apply to the State Engineer for the services of an engineer, who may, by a written order, if in his judgment the interests of the State will be promoted thereby, direct the resident engineer of either the Oswego or Erie canal to assume the charge of such work under the direction of the superintendent of the Onondaga salt springs, and to make surveys, maps, profiles, estimates and measurements thereof. (Id. § 34.)

233. Charges Against the State; Estimates to be Made.—All charges against the State or liabilities incurred for the support and maintenance of the Onondaga salt springs shall be audited and paid by the superintendent from the moneys advanced to him from time to time by the treasurer, upon the warrant of the Comptroller. Before drawing any money from the treasury to be expended by him, the superintendent shall make out in minute detail an estimate of the necessary expenses to be incurred so far as they can reasonably be foreseen for a period of two months, commencing with the month of January, and forward the same to the Comptroller, who shall thereupon authorize the superintendent to make his draft upon the treasurer for the amount of such estimate or such portion thereof as he shall think necessary and proper. To meet any extraordinary expenditure, the superintendent may, in like manner, make special estimates, upon which the Comptroller shall advance in like manner if the same be approved by him, but the superintendent shall not receive from the treasury a larger sum than the amount of the appropriation made by the Legislature for the support of the salt springs. At the expiration of each period of two months the superintendent shall make a full and perfect abstract of the vouchers in his possession to which his affidavit shall be attached, to the effect that he has deposited in the bank designated by the Comptroller all the moneys received by him for duties on salt, rents, fines or penalties, or for other property of the State; that such abstract is a true abstract of all the vouchers taken by him as superintendent for such two months; that the moneys specified in the receipts referred to in the abstract have been actually paid as specified in such receipt; and that all the receipts were filled up as they then appear, and were read or the amount distinctly stated, to the signer of each, when signed, according to his best knowledge and belief. The report and vouchers shall be returned to the Comptroller, and if satisfactory to him, he shall enter his approval on the abstract and audit and allow the accounts of the superintendent. The superintendent shall make out a report showing the expenditures for the two preceding months, corresponding in its detail of items to the estimate presented, before an advance is authorized to be made by the Comptroller. If any such vouchers are objectionable, the Comptroller shall enter his disapproval on the particular voucher and not audit and allow the same until satisfied of its legality and propriety. (Id. § 35.)

234. Sale of Lands on the Onondaga Salt Springs Reservation.—The commissioners of the land office shall cause to be appraised and sell and convey in fee any of the lands of the Onondaga salt springs reservation upon the request of any of the lessees of said lands, or their legal representatives, upon their releasing absolutely all right to have, demand or receive from the State any money by way of damages either on account of the termination of the leases by which such lots are held or on account of the destruction or removal of any salt blocks, their appurtenances or any other property or buildings therefrom. Such lessees or their legal representatives, after the appraisement of the value of such lands is returned to and approved by the commissioners of the land office, may for thirty days after the date of such approval become the purchasers of such lands at the appraised value thereof, but if the lessee or his legal representative does not purchase such lands at such appraisal within said thirty days, the title thereof shall vest and be in the people of the State released and discharged from the terms and conditions of any leases, and such lands shall be advertised and sold under the direction and control of the commissioners of the land office to the highest bidder in accordance with the pro-

visions of the public lands law, but the lessee or his legal representatives, may, for thirty days after such sale, remove therefrom the buildings and other property placed thereon by him. In case of failure to so remove such buildings or other property within said time, the same shall be considered as given up and abandoned and shall become and be the property of the person or persons so purchasing said land. (Id. § 36.)

235. Title to Lands.—The title of all lands of the Onondaga salt springs reservation which are now adjacent to, or which surround, or upon which are located the engines, pumps or wells belonging to the people of the State of New York, which shall not have been sold or disposed of in accordance with the foregoing provisions of this chapter on or before the first day of March, eighteen hundred and ninety-eight, and the title of all other lands of the Onondaga salt springs reservation which shall not have been sold or disposed of in accordance with the foregoing provisions of this chapter on or before the first day of January, eighteen hundred and ninety-nine, shall vest and be in the people of the State, released and discharged from the terms and conditions of any leases, and the buildings, structures and property thereon shall be deemed abandoned and shall become and be the property of the people of the State of New York. (Id. § 37.)

236. Moneys Arising From Sale.—All moneys arising from the sale of the Onondaga salt springs reservation or any part thereof, by virtue of the foregoing provisions of this chapter, shall be placed by the Comptroller in the State treasury. The State shall cease to furnish brine at any expense to said State on or before the first day of January, eighteen hundred and ninety-nine, and shall cease to operate its works at any expense to the State upon the Onondaga salt springs reservation on or before the first day of January, eighteen hundred and ninety-nine, and the commissioners of the land office are authorized and directed to set [sell] all of the right, title and interest of the State, or the people thereof, at public or private sale, in or to any or all of the personal property upon said Onondaga salt springs reservation or connected therewith. The lessees of any such personal property, if any there be, shall have the first opportunity of purchasing the same, but all such personal property which shall not have been disposed of on or before the first day of January, eighteen hundred and ninety-nine, shall vest absolutely in the people of the State of New York free from all claims in behalf of any lessee or his legal representatives. (Id. § 38.)

237. Appointments Already Made Not Affected.—This chapter shall not affect any appointment or term of office heretofore made by the present superintendent of the Onondaga salt springs reservation. (Id. § 39.)

The product made by the destructive distillation of wood, known as pyroligneous acid, or acetic acid derived from other sources than fruit, grain, vegetables, sugar or syrup shall not be sold, offered, exposed or had in possession for sale, for food.

Mixtures of two or more of the vinegars herein defined are compounds, and the packages containing the same shall be plainly marked or branded with the word "compound" together with the proportions of the vinegars so mixed in addition to the other requirements of section two hundred and nine of this article.

Packages containing vinegars made from wine or fruits which have been reduced with water must be plainly marked or branded "reduced to ———— per centum acid strength," indicating the acidity to which they have been so reduced, or words equivalent thereto. (C. L. 1923, c. 19, art. 17, § 207.)*

Nothing herein shall be deemed to prohibit the sale of cider vinegar stock, provided it be sold as and for such and in compliance with the provisions of this article as to marking or branding. The term "cider vinegar stock" when used herein, shall be construed to mean acetified apple juice of less acidity than that required for vinegar which contains sufficient alcohol to develop the acidity required in vinegar. Such certificate must further show that such person is in actual need of special care and treatment, and that his condition is such that his detention, care and treatment in such institution would be likely to effect a cure. Such certificate shall also specifically state the facts and circumstances upon which the judgment of each examiner is based and shall show the result of such examination. It must appear upon the face of such certificate that each examiner executing the same has made a personal examination of the person alleged to be an inebriate, and that such an examination has been made within ten days prior to the application for the commitment.

335. Search Warrant to Discover Trade-Marked Articles Unlawfully Used.—1. Whenever any person or corporation mentioned in section three hundred and sixty or his or its agent shall make oath before any magistrate that he or it has reason to believe, and does believe, that any of his or its bottles, boxes, siphons, tins, kegs, cans or can covers, a description of the names, marks or devices whereon has been so filed and published as aforesaid, are being unlawfully used or filled, or had, by any person or corporation manufacturing or selling soda, mineral or aerated waters, porter, ale, cider, ginger ale, milk, cream, small beer, lager beer, weiss beer, white beer or other beverages or medicine, medical preparations, perfumery, oils, vinegar, compounds or mixtures, or that any junk dealer or dealer in second-hand articles, vendor of bottles, or any other person or corporation has any such bottles, boxes, siphons, tins, kegs or cans or can covers, in his or its possession or secreted in any place, the said magistrate must thereupon issue a search warrant to discover and obtain the same, and may also cause to be brought before him the person in whose possession such bottles, boxes, siphons, tins, kegs, cans or can covers, may be found, and shall then inquire into the circumstances of such possession, and if such magistrate finds that such person has been guilty of a violation of subdivision one of section three hundred and sixty-two, he must impose the punishment herein prescribed, and he shall also award possession of the property taken upon such warrant to the owner thereof.

2. 337. (Id. § 366.)

338. Further Provisions Concerning Trade-Marks on Articles of Merchandise.—Any person or corporation engaged in manufacturing, packing, bottling or selling any article of merchandise, put up by him for sale in any bottle, vessel, box, package or other receptacle with his name, trade-mark, label, or private mark appearing in any way thereon, or branded, stamped, affixed, blown or impressed thereon, may file in the office of the Secretary of State, and in the office of the county clerk of the county where the same is manufactured, packed, bottled or put up for sale, or where his, its or their principal place of business is situated, or if such person or corporation shall manufacture, pack or bottle outside of this State, then in any county of this State, and also in the office of the Secretary of State, a description, specimen or facsimile of the name, trade-mark, label or other private mark so appearing thereon or so branded, stamped, affixed, blown, impressed or otherwise marked thereupon, and he shall thereupon be deemed the proprietor of such name, trade-mark, label, or other private mark. The Secretary of State shall deliver to such person or corporation so filing the same, a certificate under his seal of the record of such label, trade-mark or other private mark. Any person or corporation so filing said description, specimen or facsimile may publish the same once a week for at least three weeks successively in a newspaper published in said county, except in New York and Kings counties, where such publication shall be for the same length of time daily in two newspapers therein. Such a certificate granted by the Secretary of State under this act and proof of publication as aforesaid shall be prima facie evidence of the ownership and use of the trade-mark and label by the persons therein named, in any actions under this statute. Such certificate shall be prima * evidence of the ownership and use of any label or trade-mark therein described by the persons therein named in any prosecution or action under any of the statutes of this State, where proof of such ownership and use is necessary, and in any action or proceeding brought for the purpose of recovering damages for the violation of said trade-mark or of preventing infringement thereof. This statute, however, shall not be construed as preventing the proof of any such label or trade-mark and the use thereof in any other lawful manner in use prior to the passage of this act. The Secretary of State shall not record, register, or file any label, trade-mark or other private mark identical with or so similar to any other label, trade-mark or other private mark theretofore filed or registered as above provided as would be calculated to deceive, unless such prior registration shall have been revoked as herein provided. The Supreme Court may in an action brought for that purpose by any person aggrieved thereby against any person who has already filed or registered any such label, trade-mark or other private mark, direct the revocation of any such registration where it shall determine that the person who has already registered the same is not the rightful owner of any such label, trade-mark or other private mark. No person other than such proprietor of such label, trade-mark or other private mark which has been filed in the office of the Secretary of State and in the office of the county clerk, as aforesaid shall sell, keep or offer for sale in, from, or out of, or fill, place or put into, any

vessel, box, package, bottle or receptacle on which any such names, labels or marks in any manner appear, and while so branded, stamped, labeled, blown, impressed or marked, any article or substance other than the original contents placed therein by the proprietor of the label, trade-mark or other private marks thereon, or sell, keep or offer for sale any article or substance in, from or out of, or fill, or place or put any article or substance into any vessel, box, package, bottle or receptacle on which said label and trade-mark in any manner appears or which shall bear or have branded, stamped, labeled, blown, impressed or otherwise marked thereon, any imitation or counterfeit of any such label, trade-mark or other private mark so filed in the office of the Secretary of State and county clerk as aforesaid. No person other than such proprietor in such cases where filing and publication is made as aforesaid, shall remove, deface or obliterate any device, brand, stamp, mark, name, trade-mark or other private marks impressed, stamped or blown into the substance of which any such vessel or receptacle is composed, without the written permission of such proprietor or unless there has been a sale to such person of such vessel or receptacle exclusive of the contents thereof by such proprietor. No person other than such proprietor shall, without his permission, use, traffic in, purchase, sell, dispose of, convert, mutilate, destroy or willfully or unreasonably refuse to return or deliver to such proprietor, on demand, any such vessel or receptacle belonging to such proprietor, which is branded, stamped or marked by having any such registered design, device, name or mark blown or impressed into the substance of which the vessel or receptacle is composed or sell or dispose of any such vessel or receptacle without obliterating or defacing such label, trade-mark or other private mark if such obliterating or defacing can be done without substantial injury to the vessel or receptacle on which it appears or to which it is affixed providing filing and publication has been made as aforesaid. Nothing herein contained shall be construed as preventing the traffic in any bottles or other receptacles without contents, with or without obliteration or defacement of the trade-mark upon it, when such trade-mark can be obliterated or defaced without substantial injury to the bottle or receptacle, the intention of this section being to protect the owners of trade-marks and labels against imitation and refilling of all packages and receptacles while bearing such trade-marks. Each act of refilling, each sale, each imitation, each counterfeit and each offering for sale shall be construed as constituting a separate and distinct violation of this act. Any person violating any provisions of this section shall forfeit to such proprietor one hundred dollars for each such violation. Written permission of such proprietor to do the specific act complained of shall be a complete defense to any action therefor under this section. Nothing in this act shall prevent, lessen, impeach, or avoid any remedy at law or in equity which any party aggrieved by any wrongful use of any trade-mark might have had if this act had not been passed, and nothing herein contained shall prevent or avoid or defeat any prosecution under any of the existing penal or other statutes of this State. It is not intended hereby to repeal any of the existing penal or civil statutes or remedies relating to trade-marks, labels, bottles or packages. (C. L. 1923, c. 21, art. 24, § 367; Supp. 1926, Id.)

338a. Fees.—The Secretary of State shall collect the following fees: . . .

He shall at least twice in each year and as much oftener as he may deem necessary see that the weights, measures and all apparatus used in the county are correct. He may for the purposes above mentioned, and in the general performance of his official duties, enter or go into or upon and without formal warrant, any stand, place, building or premises or may stop any vendor, peddler, junk dealer, coal wagon, ice wagon or any dealer whatsoever, for the purposes of making the proper tests. Whenever the county sealer finds a violation of the statutes relating to weights and measures he shall cause the violator to be prosecuted. The county sealer shall keep a complete record of the work done by him and shall make an annual report to his board of supervisors, and an anual report, duly sworn to, not later than the first of December to the commissioner. No person shall remove from any such weight or measure any seal or mark which has been affixed thereto, or placed thereon by a city or county sealer or obliterate or deface the same. (Id. § 185.)

350. Condemnation and Seizure of False Weights and Measures.—A city or county sealer may condemn and seize any weight or measure found by him to fail to conform to the standards in his possession and which is not caused by him to conform to such standards and cause the same to be destroyed or disposed of under such regulations as the commissioner may prescribe. (C. L. 1923, c. 19, art. 16, § 186; L. 1927, c. 207, § 33.)

351. The possession or use by any person of any false weight, measure, or other apparatus, for determining the quantity of any commodity or article of merchandise is presumptive evidence of knowledge by such person of the falsity of such weight, measure, or other apparatus. The delivery by any person of a lesser quantity of any commodity or article of merchandise than the quantity he represents is presumptive evidence of knowledge by such person that the quantity delivered was less than the quantity he represented. (Id. § 188.)

353. False Labels.—No person shall, with intent to defraud, put upon an article of merchandise or upon a cask, bottle, stopper, vessel, case, cover, wrapper, package, band, ticket, label or other thing, containing or covering such an article, or with which such an article is intended to be sold, or is sold, any false description or false indication of or respecting the number, quantity, weight or measure of such article or any part thereof; or sell or offer or expose for sale an article which to his knowledge is falsely described or indicated in any of the manners or in any of the particulars above specified. (Id. § 189.)

Bottles or jars used for the sale of milk shall have clearly blown, or otherwise permanently marked, in the sides or bottom of the bottle the name, initials or trademark of the manufacturer and a designating number, which designating number shall be different for each manufacturer and may be used in identifying the bottles. The designating number shall be furnished by the commissioner upon application by the manufacturer, and a record of the designating numbers and to whom furnished shall be kept in the office of the commissioner. No manufacturer shall sell milk or cream bottles to be used in this State that do not comply as to size and marking with the provisions of this section. No dealer shall knowingly use, for the purpose of selling milk or cream, jars or bottles that do not comply with the provisions of this section. (C. L. 1923, c. 19, art. 16, § 191; L. 1927, c. 219.)

357. Standard Containers; Vegetables.—A standard container to be used for the sale of any commodity hereinafter named shall be one having the dimensions specified in this section for that particular commodity. No container used for the sale of such commodity shall be marked or otherwise represented as a standard container unless it shall have the dimensions hereinafter given for a standard container for such commodity; nor shall any such nonstandard container be sold or offered for sale as a standard container, nor shall the commodity in question, if packed in such nonstandard container, be represented as being packed in a standard container

when offered for sale or sold. But the commissioner shall have authority to, and may, approve as a standard container any type of container for any commodity which shall have the same cubic capacity as the one hereafter provided for such commodity. Any container so approved shall be deemed a standard container for such commodity.

1. A standard container for lettuce shall have a capacity of two thousand two hundred and eighty cubic inches, and shall have the following inside dimensions: length nineteen inches, width sixteen inches, depth seven and one-half inches, and shall be marked "standard lettuce container." When lettuce is sold or offered for sale either in a standard or nonstandard container, the contents of such container shall be plainly marked thereon, or on a label or tag attached thereto, in terms of numerical count, anything to the contrary in section one hundred and ninety-four of this chapter notwithstanding.

2. When multiple loaves are baked, each unit loaf shall conform to the weight required by this section. The weights herein specified shall mean net weights not more than twelve hours after baking, or not more than twelve hours after sale and delivery by the manufacturer for resale. Such weights shall be determined by the average weight of not less than six loaves; provided, that such average weights shall be determined by the weight of at least twelve loaves, whenever such number of loaves is available at the time and place of such weighing; and provided further, that bread found upon any premises occupied for the manufacture of bread for sale, or any bread found in the wagons, trucks, baskets, boxes or other delivery vehicle or receptacles owned or controlled by the manufacturer of such bread, and being transported or delivered for sale, shall for the purposes of this section be deemed to have been baked within twelve hours unless such bread is marked, designated or segregated as stale bread. Such unit weights shall not apply to rolls; nor to stale bread when sold as such; nor to restaurant or sandwich bread sold for consumption and used on the premises and not for resale; nor to fancy bread such as fruit breads, nut breads, seed-covered breads, sugar-coated breads and gluten breads, and such other breads as shall be defined as fancy bread; nor to bread sold by the piece cut from the loaf, provided such bread be weighed in the presence of the buyer upon tested scales kept for that purpose; nor to loaves bearing in plain and conspicuous position a plain statement of the net weight of the loaf and the name of the manufacturer thereof upon the wrapper of each loaf, if the bread is wrapped, or, if unwrapped, upon a label, which label or that portion representing the weight shall be not larger than one by one and three-quarter inches and not smaller than one by one and one-half inches in size affixed to the loaf in a sanitary manner, provided, however, that in the case of loaves sold at retail, or offered or exposed for retail sale, direct from manufacturer to consumer upon or in the premises of the manufacturer, the information as to the weight of such loaves may be given upon a notice printed in English and, if different language is spoken, also the language or languages of the neighborhood, conspicuously posted in plain view of the buyer and in close proximity to the bread offered for sale in such premises, setting forth the weight of each size and variety of such loaves. When an inspection of bread is made at any bakery by or under the direction of the commissioner or by or under the direction of any city or county sealer, the manufacturer of such bread or his servants or agents shall, upon the request of the official making such inspection, inform him whether such bread is manufactured for sale in any of the standard unit weights prescribed by

this section and, if not so manufactured for sale in such standard units, shall furnish such official with samples of the labels or wrappers intended to be used on all such loaves of other than standard unit weights, or the notices intended to be posted with respect to such loaves. The commissioner shall make such uniform rules and regulations as are necessary to enforce this section, including reasonable tolerances or variations within which all weights shall be kept; provided, however, that the variation between the standard or represented weight and the true or actual weight shall not exceed one ounce per pound. The requirements of section one hundred and ninety-four of this chapter shall not apply to the sale of bread. (Supp. 1926, c. 19, art. 16, § 193-a; L. 1927, c. 207, § 35.)

Net Contents of Containers to be Indicated on the Outside Thereof.—When commodities are sold or offered for sale in containers whose sizes are not otherwise provided by statute, the net quantity of the contents of each container, shall be plainly and conspicuously marked, branded or otherwise indicated on the outside or top thereof or on a label or a tag attached thereto in terms of weight, measure or numerical count; provided, however, that reasonable variations shall be permitted. (C. L. 1923, c. 19, art. 16, § 194.)

361. Exceptions.—The provisions of sections one hundred and ninety-three and one hundred and ninety-four shall not apply to containers or commodities in containers with ornamentations or decorations exclusively for gifts or social favors or to commodities dispensed for consumption on the premises, or to commodities or containers put in receptacles used merely for the purpose of carrying or delivering of commodities or containers complying with the provisions of such sections, or when the numerical count of the individual units is six or less, or in the case of liquids when the contents is two fluid ounces or less, or when the weight of the contents is three avoirdupois ounces or less, or to barrels, half-barrels, quarter-barrels, casks, kegs and packages used for the purpose of containing maltous beverages. (C. L. 1923, c. 19, art. 16, § 195; Supp. 1926, Id.)

362. Guaranty Furnished by Wholesaler, Jobber or Manufacturer.—No person shall be prosecuted under the provisions of the last three sections when he can show a guaranty signed by a wholesaler, jobber or manufacturer, residing in the State of New York from whom he purchased the commodity in containers to the effect that they were not incorrectly marked within the meaning of such sections. The person making the sale and guaranty shall then be amenable to the prosecution, fines, and other penalties which would in due course attach to the dealer under the provisions of such sections. The name appearing on the container and the marking as provided by next to the last preceding section shall be deemed to constitute a guaranty. (C. L. 1923, c. 19, art. 16, § 196.)

363. Construction of Contracts.—All contracts made within the State for work to be done, or for the sale or delivery of personal property by weight or measure, shall be taken and construed according to the standards of weights and measures adopted in this article. (Id. § 197.)

364. Concealing Foreign Matter in Merchandise.—A person who, with intent to defraud, while putting up in a barrel, bag, bale, box, or other package, cotton, hops, hay, or any other article of merchandise whatever, usually sold by weight in such packages, places or conceals therein any other substance or thing whatever, in a case where special provision for the punishment thereof is not otherwise made by statute, is guilty of a misdemeanor.* (C. L. 1923, c. 41, art. 40, § 434.)

365. Requiring More Than the Legal Weight for a Bushel.—Where potatoes, grains or other agricultural products are sold by the bushel, without agreement as to the weight, any person requiring a greater number of pounds for a bushel than as prescribed by section eight† of the general business law is guilty of a misdemeanor.* (C. L. 1923, c. 41, art. 216, § 2410.)

366. Using False Weights and Measures.—A person who injures or defrauds another by using, with knowledge that the same is false, a false weight, measure, or other apparatus, for determining the quantity of any commodity, or article of merchandise, or by knowingly delivering less than the quantity he represents, is guilty of a misdemeanor.* (Id. § 2411.)

367. Keeping False Weights and Measures.—A person who retains in his possession any weight or measure, knowing it to be false, unless it appears beyond a reasonable doubt that it was so retained without intent to use it, or permit it to be used in violation of the last section, is guilty of a misdemeanor.* (Id. § 2412.)

369. Weights and Measures May be Tested by Committing Magistrate and Destroyed or Delivered to District Attorney.—The magistrate to whom any weight or measure is delivered pursuant to the last section, must, upon the examination of the defendant, or if the examination is delayed or prevented, without awaiting such examination, cause the same to be tested by comparison with standards conformable to law; and if he finds it to be false, he must cause it to be destroyed, or to be delivered to the district attorney of the county in which the defendant is liable to indictment or trial, as the interests of justice in his judgment require. (Id. § 2414.)

370. Presumption of Knowledge.—The possession or use by any person of any false weight, measure or other apparatus for determining the quantity of any commodity or article of merchandise is presumptive evidence of knowledge by such person of the falsity of such weight, measure or other apparatus. (Id. § 2414-a.)

371. False Weights and Measures to be Destroyed After Conviction of Offender.—Upon the conviction of the defendant, the district attorney must cause any weight or measure in respect whereof the defendant stands convicted, and which remains in the possession or under the control of the district attorney, to be destroyed. (Id. § 4761.)

13. Dealer Released by Guaranty of Wholesaler.—No dealer shall be prosecuted under the provisions of this article when he can establish a guaranty signed by the wholesaler, jobber, manufacturer, or other party, residing in North Carolina, from whom he purchases such articles, to the effect that the same is not adulterated or misbranded within the meaning of this article, designating it. 166b. "Inebriate" Defined.—For the purposes of this law, the word "inebriate" is defined to be a person habitually so addicted to alcoholic drinks or narcotic drugs as to be a proper subject for restraint, care and treatment. (C. S. Supp. 1924, § 2304(a).)

166c. Petition for Examination—Warrant for Hearing—Action Without Petition—Evidence.—Upon petition of two citizens, who shall be either the wife, husband, parent, child, committee of the estate of an inebriate, or next friends of such person, the clerk of the Superior Court of the county in which said alleged inebriate resides shall issue his warrant requiring the inebriate, on a day fixed, to be brought into court for a hearing. The petition shall not be considered unless it sets forth that the person named therein is an inebriate within the scope of this law, and unless it be accompanied by the affidavit or affidavits of at least two reputable physicians, stating that they have examined the alleged inebriate, and that he is a proper subject for restraint, care, and treatment, or the clerk may, on his own initiative, where he has information and reasonable grounds to believe that a particular person is an inebriate and is a fit subject for restraint, care, and treatment, cause such person to be brought before him and proceed to hear and try the question of whether or not he is an inebriate within the definition of the preceding section. If two reputable physicians shall certify before him that such person is an inebriate, he may commit such an inebriate as herein provided to the Department of the State Hospital at Raleigh provided for the care and treatment of such inebriate. If he is so indigent, then he shall inquire further whether or not the petitioning wife or husband has sufficient estate to pay such costs. If the inebriate is a minor he shall determine whether his particular guardian or parent has sufficient estate of the inebriate or his own, if a parent, to pay such costs. In any of these instances, if sufficient estate or property is found to pay such costs, the clerk shall adjudge the payment from such estate, and in all cases, if the petitioning parent has property sufficient to pay, he shall be adjudged adjudged to pay costs of the treatment of his minor child. But if in none of these cases sufficient property is found to pay such costs and expenses, the inebriate shall be declared indigent and the actual cost and expense of restraint, care, and treatment of indigent inebriates as herein defined shall be borne and paid by the county from which the inebriate is committed: Provided, that there shall not be included in such cost and expense any charge except for board and clothing. S. 1919, § 6684.)

168. Certain Patent Cures and Devices; Enforcement of Law.—To provide for the efficient enforcement of the preceding section, the same shall be under the supervision and management of the North Carolina Board of Pharmacy, and it shall be the duty of all registered pharmacists to report immediately any violations thereof to the secretary of the Board of Pharmacy, and any willful failure to make such report shall have the effect of revoking his license to practice pharmacy in this State. (Id. § 6685.)

169. Misbranding, What Constitutes.—The term "misbranded" as used herein shall apply to all drugs or foods or articles which enter into the composition of food, the package or label of which shall bear any statement, design or device regarding such article, or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely branded as to locality, state or country of origin, or in which it was manufactured or produced, or if the package or label of which does not contain the true name and address of the manufacturer, jobber or other person responsible for its being placed in commerce.

For the purposes of this act an article shall also be deemed to be misbranded:

A. In the case of drugs:

First. If it be an imitation of or offered for sale under the name of another article.

Fourth. If, in package form, the name of the article, together with the quantity of the contents in terms of weight, measure or numerical count, be not plainly and conspicuously marked on the outside of the package.

Fifth. If, in package form, the package be not filled with the food it purports to contain, irrespective of whether the quantity of the contents be plainly and conspicuously marked on the outside of the package in terms of weight, measure or numerical count.

Sixth. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or substances contained therein, which statement, design or device shall be false or misleading in any particular.

Seventh. If it be an imitation of another article and it be not marked with the word "imitation" equally conspicuous with and immediately adjoining the name of the imitated article.

Eighth. If it be a compound for which no standard of purity or quality has been established and it be not marked with the word "compound" equally conspicuous with and immediately adjoining the name of the article: Provided, however, that imitations, compounds, blends, mixtures or products sold under their own distinctive names shall, where necessary to prevent fraud or deception or to convey to the purchaser the true nature of the product, bear on the label a plain statement of the ingredients. If such statement of the ingredients alone be insufficient for the purpose herein designated the percentage of each ingredient shall in addition be required. (Id. § 2889b6.)

7. Special Weights and Sizes.—It shall be unlawful for any person, firm or corporation to manufacture, sell or expose for sale, any article of food or drug in any package or container, the size or shape of which may deceive or tend to deceive the purchaser of such product as to the contents of said package or container, and that for the purpose of preventing fraud and deception, the State Food Commissioner and Chemist shall hereby be authorized to establish, publish and enforce rules and regulations relative to the size, weight or style of package or other specific food or drug commodities than those specifically named in section 7 and

section 8 of this act* and such rules and regulations shall have the force and effect of law. (Id. § 2889b9.)

8. Right of Inspection.—For obtaining information regarding suspected violations of this act the State Food Commissioner and Chemist, his assistants, inspectors or agents shall have free access, ingress and egress to all places where articles of food, drug or beverage or other articles designated in this act are manufactured, sold, exposed for sale or transported or held in possession with intent to use, sell or transport, or where food is prepared, cooked or held in any capacity whatever, except in a private home; and that agents, bookkeepers, transportation officers and other employees shall render all assistance and aid within their power to inspectors to effectuate the provisions of this act; that said inspectors or agents upon paying or offering to pay to the person entitled thereto the full value thereof, may open any package, receptacle or container containing any article coming under the provisions of this act and may take a sample therefrom, sufficient for inspection and analysis. Any person obstructing such entry or inspection or failing upon request to assist therein shall be deemed guilty of a misdemeanor. (Id. § 2889b14.)

9. Seizure; Search Warrant.—The State Food Commissioner and Chemist may seize any article of food or drug, the manufacture, transportation, sale or use of which is prohibited by this act or which is manufactured, sold, used, transported, kept or offered for sale, use or transportation or had in possession with intent to use, sell or transport in violation of any provision of this act or in violation of any rule, regulation, standard or definition issued pursuant thereto, and for this purpose he and his several assistants, inspectors, agents and employees shall have the powers of a constable. Such seizure may be made without a warrant, but in such case, as soon as practicable, he shall cause the person suspected of such violation of law to be arrested and prosecuted therefor. When necessary a search warrant may be issued by any magistrate of the State, justice of the peace or police magistrate whenever probable cause is shown by testimony under oath by way of affidavit or deposition, that any article of food or drug which is adulterated, misbranded, insufficiently or improperly labeled or otherwise in violation of any provision of this act or any rule, regulation, standard or definition issued pursuant thereto, or any food which is unwholesome, poisonous, deleterious or detrimental to health, is being kept or is present upon certain premises, particularly describing such premises, or in the possession of any person, naming or describing the person, the said magistrate shall issue a search warrant, signed by him with the name of his office, directed to any peace officer in his county, or to the State Food Commissioner and Chemist, or any of his duly authorized agents, commanding him or them to forthwith search the person or place named and to seize all and any articles of food or drug which may be held in violation of any provision of this act and to bring such articles of food or drug before the magistrate. The search warrant issued shall be substantially the form prescribed in section 11134 of the Code of Criminal Procedure, Compiled Laws of North Dakota, 1913.

The provisions of article 11 of the Code of Criminal Procedure, Compiled Laws of North Dakota, 1913, as to service of search warrant, return of warrant, hearing, and return to District Court, shall govern in cases of search warrant issued pursuant to the provisions of this act, except that the testimony of the witnesses need not be reduced to writing, and where the magistrate finds that the property seized is property of the kind described in the search warrant, and that there is probable cause to believe that the grounds on which the search warrant was issued existed, he shall send said property so seized under the search warrant to the District Court, together with his return. In case he shall find there is not probable cause to believe that the grounds on which the search warrant was issued existed he shall order the property returned to the person from whom it was taken. (Id. § 2889b15.)

of transportation or other property in which any such nuisance may have been found, shall each or all be made defendant. In case judgment is rendered in favor of the plaintiff in an action brought under the provisions of this section, the court in rendering judgment shall provide for the destruction of such adulterated, misbranded, insufficiently or improperly labeled article of food or drug or article of food which is unwholesome, poisonous, deleterious, or detrimental to health, or make such other judgment and decree with reference to the same as shall be proper in the premises, and such as shall prevent said articles from being used, sold or transported in violation of this act. In case of perishable food or drugs the court may at any time, on the motion of any party upon ten days' notice to the other parties to the action, in his discretion order the destruction of the same, or may at any time in his discretion order that said property be returned to the person from whom it was taken upon furnishing a bond conditioned that said article will not be sold, used or transported in violation of any of the laws of this State, and further conditioned for the payment of any judgment for costs which may be entered in said action. In case judgment is rendered in favor of the plaintiff in any action brought under the proceedings in said action, the court or judge rendering the same shall also render judgment for a reasonable attorney's fee in said action in favor of the plaintiff and against the defendants therein, which attorneys' fee shall be taxed and collected as other costs therein; and when collected, paid to the attorney or attorneys of the plaintiff therein; Provided, that if such attorney is the Attorney-General, one of his assistants, or the State's attorney of the county in which the action is instituted, such attorneys' fee shall be paid into the county treasury in the same manner in which other costs in the action are paid. (Id. § 2889b16.)

11. Authority to Render Certain Foods Unsalable.—Whenever the State Food Commissioner and Chemist or any of his authorized agents shall find in any room, building, vehicle of transportation or other structure or place, any meat, sea food, poultry, vegetable, fruit or other perishable articles intended to be sold or used for human consumption which are or contain filthy, decomposed or putrid animal or vegetable substance or that may be unsafe, unwholesome, poisonous, deleterious or detrimental to health, the same being hereby declared to be a nuisance, he shall forthwith seize, condemn and destroy the same or in any other manner render the same unsalable as human food. (Id. § 2889b17.)

12. Definitions, Rules, Regulations and Standards.—For the purpose of securing uniformity as far as practicable among the laws of this State, municipalities within the State, and the Federal Government, to prevent fraud and deception in the manufacture, use, sale and transportation of food, and to protect and preserve the public health and to carry out the intent of this act, it shall be the duty of the State Food Commissioner and Chemist to fix, adopt, publish and enforce definitions, rules, regulations and standards of quality, purity and strength of articles of food and drugs for which no definitions, rules, regulations and standards are prescribed by law, and such definitions, rules, regulations and standards so fixed, adopted and published shall be lawful in this State and shall have the force and effect of law. (Id. § 2889b18.)

13. Analyses, Publication.—It shall be the duty of the State Food Commissioner and Chemist to make or cause to be made analyses, examinations and inspections of all articles included under the provisions of this act to determine whether such articles are adulterated, misbranded, insufficiently or improperly labeled or unwholesome, poisonous or deleterious within the meaning of this act, and whether such articles have been manufactured, used, sold, transported, offered for sale or transportation or had in possession with intent to use, sell or transport in violation of any provisions of this act or any definition, standard, rule or regulation issued pursuant thereto and for other reasons, and a copy of the result of the examination or analysis of any such article duly authenticated by the chemist making such analysis or examination when given under oath shall be prima facie evidence in all courts of the matters and facts therein contained. The said State Food Commissioner and Chemist shall have authority to make such analysis, inspection and investigations and to carry on research and to publish the reports of such analysis, inspections and research for the information of the public. (Id. § 2889b19.)

14. Local Inspection.—The governing authority of any municipal corporation may by ordinance provide for the inspection of milk, cream and butter sold within its limits, and of dairy and dairy herds kept for the production of such milk, cream or butter, and may prescribe the terms upon which such sales may be made, and fix penalties for violation thereof; they may provide for a municipal

abattoir, provide for its operation and may prescribe regulations for the slaughtering of animals to be sold as meat and other sanitary and regulatory provisions as applied to food products; but no such ordinance or ordinances, rules or regulations shall conflict with any law of this State or any standard, rule or regulation fixed pursuant thereto. (Id. § 2889b20.)

15. Duty to Prosecute.—It shall be the duty of any State's Attorney to whom the State Food Commissioner and Chemist or his agent shall report any violation of this act to cause, without delay, appropriate proceedings to be instituted in the proper court of jurisdiction for the enforcement of the penalties, as in such case, is herein provided. (Id. § 2889b21.)

16. Penalties.—Any person violating or failing to comply with any of the provisions of this act or any rule, regulation, definition or standard issued pursuant thereto shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than twenty-five dollars ($25.00) or more than one hundred dollars ($100.00) or by imprisonment for not less than ten days or more than thirty days or both at the discretion of the court. (Id. § 2889b22.)

17. Disposition of Funds; Expenses, How Paid.—All moneys appropriated or otherwise authorized for the enforcement of this act shall be entered on the records of the State Food Commissioner and Chemist and the State Treasurer shall enter such moneys and carry them in a special revolving fund to be designated the State Regulatory Fund. All salaries and items of expense of whatever nature incurred in the enforcement of this act, as herein provided, shall be paid out of said State Regulatory Fund. Vouchers for all expenses, pay rolls and other items of expense of whatever nature incurred by the State Food Commissioner and Chemist in carrying out and enforcing the provisions of this act shall be approved by said State Food Commissioner and Chemist and shall be forwarded monthly to the State Board of Administration for audit and approval and the same shall be certified to the State Auditor, who shall draw warrants upon the State Treasurer for all pay rolls, expenses and bills so audited and approved. The State Treasurer shall thereupon pay such expenses and accounts out of the State Regulatory Fund. (Id. § 2889b23.)

18. Construction, Intent of Act.—The fact that certain weight, size and style of package are fixed in this act and that specific forms of adulteration and misbranding are specifically defined and other specific provisions are made in this act, it shall not be construed to limit the operation of the act to such forms of adulteration and misbranding as are specifically mentioned, it being the intention of the act to prevent deception and fraud in all articles of food, drugs or beverages and to prohibit the manufacture, sale, offering for sale or transportation or having in possession with intent to use, sell or transport any adulterated, misbranded, insufficiently or improperly labeled article of food or drug or any article of food which is unwholesome, poisonous, deleterious or detrimental to health, whether the adulteration, misbranding, insufficient or improper labeling, unwholesomeness or poisonous or deleterious qualities are referred to specifically in this act or not. (Id. § 2889b24.)

19. Definitions, Evidence of Intent.—The word "person" as used in this act shall be construed to import both the singular and plural, as the case demands, and shall include corporations, copartnerships, companies, societies and associations or two or more individuals having a joint or common interest. No person who shall commit or assist in committing any offense herein defined shall be exempt from conviction and punishment therefor, for the reason that he acted as an agent, employee or representative of another. When construing and enforcing the provisions of this act, the act, omission or failure of any officer, agent or other person acting for or employed by any corporation, copartnership, company, society or association within the scope of his employment or office shall in every case be also deemed to be the act, omission or failure of such corporation, copartnership, company, society or association as well as that of the person.

The words "sell" and "sale" as used herein shall be construed as including the keeping, offering or exposing for sale, use, transportation or exchange of the restricted, regulated or prohibited article; the having of any such article in possession with intent to sell, use, transport or exchange the same, and the storing, carrying or handling thereof in aid of traffic therein, whether done or permitted in person or through others; the having in possession of any article, the manufacture, sale, use or transportation of which is restricted, regulated or forbidden by this act, shall be deemed prima facie evidence of intent to sell, manufacture, transport or use the same in violation of law. (Id. § 2889b25.)

20. Provisions Severable.—The provisions of this act and each part thereof and its sections and each part thereof are independent and severable, and if any

provisions or part thereof or section or part thereof be held unconstitutional or invalid, no other provision or part thereof or section or part thereof shall thereby be impaired or rendered unconstitutional or invalid. (Id. § 2889b26.)

Miscellaneous General Provisions.

(C. L. 1913, § 3043.)

22. Forfeiture of Charter.—If complaint shall be made to the Attorney-General that any person, firm or corporation is guilty of unfair discrimination, as defined by this article, he shall investigate the matter complained of, and for that purpose may subpœna witnesses, administer oaths, take testimony and require the production of books or other documents belonging to such person, firm or corporation, and if, in his opinion, sufficient grounds exist therefor he shall prosecute an action in the name of the State of North Dakota, in the proper court, to annul the charter or revoke the permit or license of such person, firm or corporation, as the case may be. (Id. § 3044.)

23. Attorney-General Brings Action, When.—If, after the revocation of such charter in the case of a domestic corporation, or of its permit if it be a foreign corporation, any such corporation shall continue or attempt to do business within this State, it shall be the duty of the Attorney-General of this State, by a proper action commenced in the name of the State, to oust such corporation from any and all business of any kind or character within the State of North Dakota. (Id. § 3045.)

Any person or persons who shall violate any provision of this act shall be deemed guilty of misdemeanor, and upon conviction thereof before a court having jurisdiction in such cases shall be fined for each and every offense in a sum not less than five or more than one hundred dollars. For the purpose of preventing the use of said cans, casks, kegs, barrels or other receptacles by other than the owner, or for any purpose other than that herein provided, and to insure the wholesomeness and high quality of said products and the sanitary condition of the receptacles in which the same are transported, it shall be the duty of the State Dairy Commissioner to enforce the provisions of this act. All samples of milk or cream so taken shall be indelibly labeled, marked or numbered to correspond with a record kept of the net weight of milk or cream, the percentage and amount of butter fat credited as being present in each container received, and the amount of money paid for same. Except that in case more than one container is used by the owner or owners in the delivery of a quantity of milk or cream, the entire contents, but only the original contents of such containers may be emptied into a tank or vat free from other substance where it shall be thoroughly mixed and a representative sample of not less than two ounces procured, transferred to a sample jar or bottle, and labeled to correspond with a record kept as herein provided shall be protected from extremes of temperature and shall be retained for a period of not less than twenty-four hours, except that all samples taken on Saturday shall be retained until 5 o'clock of the afternoon of the following Monday, during which time the receptacles containing such samples shall not be opened except by the State Dairy Commissioner, his deputy or legal agent, who may officially inspect the same for the purpose of determining the percentage of butter fat contained therein according to section 2853 of the Compiled Laws of 1913.* The Dairy Commissioner, his deputy or legal agent, shall at all times have access to the records kept in compliance with the provisions of this act. (Id. § 2863b1.)

mailed by the buyer or prospective buyer to the office of the State Dairy Commissioner. There shall accompany all such samples a statement prepared by the buyer or the prospective buyer giving the name and address of the owner of the milk or cream in question, the net weight of such milk or cream, the percentage and amount of butter fat contained therein, the price per pound for butter fat and the amount of money paid or offered in payment for same. Such statement shall bear the signatures of the owner and the buyer or prospective buyer to indicate that the samples so forwarded is representative of the entire amount of milk or cream in question. The State Dairy Commissioner, his deputy or agent, shall officially determine the percentage of butter fat contained in such sample according to the provisions of section 2853 of the Compiled Laws of 1913,* and shall make a report thereon in triplicate, the original to be filed in his office, one copy to be sent to the owner, and one to the buyer or prospective buyer of the milk or cream. The percentage of butter fat so determined and reported shall constitute the "official butter fat test" of the milk or cream and shall be the basis on which final settlement shall be made for the milk or cream in question. (Id. § 2863b2.)

86. Disagreement, Procedure and Settlement.—Whenever it shall be impossible to secure and mutually agree upon a sample of milk or cream as provided in section 2 of this act, by reason of its having been mixed with other milk or cream or any other substance which might alter its percentage of butter fat content, or when for any reason the original quantity of milk or cream is not available for sampling then the party selling or offering for sale such milk or cream may, within twenty-four hours of the time of delivery, require that the buyer or prospective buyer shall forward to the office of the State Dairy Commissioner the sample taken in compliance with section 1 of this act. There shall accompany each sample so forwarded a statement from the buyer or prospective buyer, in the form of an affidavit, that such sample was taken in compliance with all provisions of section 1. This statement shall also give all information as specified in section 2, except that such statement need not bear the signature of the previous owner of the cream. Each sample so forwarded to and received at the office of the State Dairy Commissioner shall be tested and reported on as prescribed in section 2, and the percentage of butter fat so determined and reported shall constitute the "official butter fat test" and shall be the basis on which final settlement shall be made for the entire amount of milk or cream in question. (Id. § 2863b3.)

87. Complaints, How Made, and Action Taken Relative To.—The Dairy Commission, upon receipt of a complaint from any buyer of milk or cream, as described in section 1, regarding methods, weights, measures, scales or any apparatus used by any other buyer in determining the percentage and amount of butter fat present in any quantity of milk or cream may require that any sample or samples taken in compliance with section 1, together with the record corresponding to such sample or samples, shall be forwarded to his office for an official test; provided, however, that the Dairy Commissioner shall give notice to that effect within twenty-four hours of the time when such sample or samples in question are taken. (Id. § 2863b4.)

88. Defective Apparatus and Unreasonable Variation in Tests.—Any weights, measures, scales or any apparatus whatever used in determining the amount of butter fat in a quantity of milk or cream which shall be found defective or inaccurate in the enforcement of this act may be ordered repaired or the use thereof discontinued. Any unreasonable variation between the official test made by the Dairy Commissioner, his deputy or his agent and any test made by any licensed milk or cream tester in the State may be cause for the revocation of or refusal to reissue a license to any milk or cream buyer in the State. (Id. 2863b5.)

89. Enforcement.—The provisions of this act shall be enforced by the State Dairy Commissioner and he shall have authority to make such rules and regulations, not in conflict herewith, as he shall find necessary to carry into effect all the provisions of this act.
